INDEPENDENT AUDITOR'S REPORT ON REVIEW
OF INTERIM CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

To the **Shareholders of ALKATHIRI HOLDING COMPANY**
 (A Saudi Joint Stock Company)

Introduction:

We have reviewed the accompanying interim condensed consolidated statement of financial position of **ALKATHIRI HOLDING COMPANY** (a Saudi Joint Stock Company) "the company" and its subsidiaries collectively referred to together as the "Group", as of September 30, 2023, and the related interim condensed consolidated statement of profit or loss and other comprehensive income for the three-month and nine-months periods ended September 30, 2023, interim condensed consolidated statements of changes in equity and interim condensed consolidated cash flows for the six-month periods then ended, and a summary of significant accounting policies and other explanatory notes.

The company's management is responsible for preparing and presenting these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 (interim Financial Reporting) endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review:

We conducted our review in accordance with the International Standard on Review Engagements No. (2410) Review of interim Financial Information performed by the independent auditor of the entity, endorsed in the Kingdom of Saudi Arabia. A review of the interim condensed consolidated financial statements consists of making inquiries, primarily, to those responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the International Standards of Auditing endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would be become aware of all significant matters that might be identified in an audit. Accordingly, we do not express such an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements as of September 30, 2023 have not been prepared in all material respects, in accordance with the International Accounting Standard No. 34 (Interim Financial Report) endorsed in the Kingdom of Saudi Arabia.

NOTE 1. INFORMATION ABOUT THE COMPANY:

a. Establishment of the Company

Al Kathiri Holding Company (the Company), The Company is a Saudi joint stock Company registered in Riyadh the Kingdom of Saudi Arabia under Commercial Registration number 1010255690 on 29 Shaban 1429 H (30 Aug 2008 G).

b. Company's Activity

The main activities of the Company are managing its subsidiaries or participating in managing other companies in which it contributes and providing the necessary support for them and owning industrial property rights from patents, trademarks and industrial marks, concession rights, and other intangible rights, exploiting them and leasing them to its subsidiaries or others.

c. The Company's share capital

During the year 2017, the partners decided to convert the company from a limited liability company to a joint stock company, and Ministerial Resolution No. (Q / 171) was issued on 06/09/1438 H approving the license to convert the company, and on the date of 06/15/1438 AH Ministerial Decision No. (S) was issued / 181) by announcing the company's transformation into a joint stock company and increasing its capital from 5,000,000 SR to 27,300,000 SR by transferring an amount of 20,207,901 SR from the Retained Earnings and an amount of 2,092,099 SR from the statutory reserve based on the 2016 Consolidated financial statements.

On 17/5/2017 the Capital Market Authority announced the approval of the prospectus for the issuance of Al Kathiri Holding Company and offering 819,000 shares representing 26.1% of the capital to list in the Nomu - parallel market with a capital of 31,395,000 SR

On 10/28/2019, the Capital Market Authority issued a decision containing the approval of the Al Kathiri Holding Company's request to move from the Nomu - parallel market to the main market with a capital of 45,208,800 SR and 4,520,880 shares.

The extraordinary general assembly meeting held on 18/2/1442H corresponding to 5/10/2020 was approved on the recommendation of the Board of Directors to meet on 17/3/1441H corresponding to 11/14/2019 to increase the company capital from 45,208,800 riyals to 90,417,600 riyals by offering Shares for a public subscription while retaining the right of priority in the subscription of shares for shareholders attending the meeting of the shareholders' association.

The Extraordinary General Assembly held on 13/11/1442AH corresponding to 06/23/2021, agreed to increase the company's capital from 90,417,600 riyals to 113,022,000 riyals, through retained earnings by granting one free share to each shareholder who owns 4 shares of the company's shares.

During the year 2022, the company established a special purpose entity named Alkathiri Sukuk Facility "Special Purpose Entity" licensed by the Capital Market Authority No. (SPE00034) on December 16, 2021, so that Alkathiri Holding Company is the sponsor and Al-Khair Capital Company is the trustee, and the nature of the activity of this entity is the issuance of debt-based debt instruments. The Extraordinary General Assembly, held on 9/21/1444 AH corresponding to 4/12/2023 AD, agreed to adjust the par value of one share at 50 halalas (0.5 Saudi riyals) instead of 10 Saudi riyals, the number of shares became 226,044,000 shares instead of 11,302,200 shares.

D. Fiscal year:

The fiscal year of the Company is 12 months starting from the beginning of January and ending in December of each year.

E. Presentation and activity currency

The financial statements are prepared in Saudi riyals, which is the Company's activity and presentation currency. All numbers have been rounded to the nearest Riyal unless otherwise indicated.

2. THE BASIS OF PREPARATION:

2-1 Statement of compliance

The company's Consolidated financial statements were prepared in accordance with IAS 34 (Interim Financial Reports) endorsed in the kingdom of Saudi Arabia and other standards and other standards issued by the Saudi organization for chartered and professional accountants.

2.2 Accounting basis

Consolidated financial statements are prepared in accordance with the principle of historical cost and using Accrual basis and the concept of continuity of activity, excluding financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss and investments in Islamic murabaha that are proven at fair value through the statement of profits or losses and investments in associate companies which are recorded in accordance with the method of equity.

Information about the group

The condensed interim consolidated financial statements include the financial statements of Al Kathiri Holding Company and the condensed interim financial statements of all companies controlled by the Company (its subsidiaries) that were established or acquired until 30 september2023 . They are as follows:

Company's name	Country	Legal entity	Ownership Percentage(%)
Alian Industry Company	Kingdom of Saudi Arabia	Saudi Closed Joint Stock Company	99
Msandh Alemdad Company	Kingdom of Saudi Arabia	Limited liability Company	100
Sukuk Al-kathiri	Kingdom of Saudi Arabia	Special purpose entity	The company is the sponsor

3. BASIS OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS:

These condensed consolidated interim financial statements , which include the consolidated statement of financial position, the consolidated profit or loss and comprehensive income statement, the consolidated statement of changes in equity, the consolidated statement of cash flows and the notes to the consolidated Consolidated financial statements of the Group It includes the assets, liabilities, and results of the operations of the company and its subsidiaries, as shown in Note (2). Subsidiaries are the entities that the group controls. In particular, the group controls the investee company only when the group has:

- Power over the investee company (that is, the existence of rights that give the group the current ability to direct activities related to the investee company).
- Exposure to risks, or rights to obtain different returns through its relationship with the investee company.
- The ability to use its powers over the investee company to influence its returns.
- In general, there is an assumption that a majority of voting rights results in control. In support of this assumption, when the group has less than a majority in voting rights or similar rights in the investee company, the group takes into account all the facts and circumstances related to this when ascertaining whether it exercises control over the investee company, and this includes:
 - The contractual arrangement (arrangements)with other voting rights holders in the investee company.
 - Rights arising from other contractual arrangements.
 - The group's voting rights and potential voting rights.

3. BASIS OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS(continued)

Subsidiaries are consolidated from the date on which control commences until the date on which control ceases. The group accounts for the business combination using the acquisition method when control is transferred to the group. The consideration transferred in the acquisition is generally measured at fair value, as is the case for the net identifiable assets acquired. The excess of the cost of acquisition plus the fair value of the non-controlling interests over the fair value of the net identifiable assets acquired is recorded as goodwill in the consolidated statement of financial position. Non-controlling interest is measured by the proportion of its share of the net identifiable assets of the acquiree at the date of the acquisition. The share in profit or loss and net assets not controlled by the Group are presented as a separate item in the consolidated statement of profit or loss and comprehensive income and within equity in the consolidated statement of financial position. Both transactions as well as unrealized balances and profits and losses resulting from inter-company transactions are eliminated. Accounting policies of subsidiaries are modified when necessary to ensure compliance with the policies followed by the Group.

4. USE OF ESTIMATES:

The preparation of these condensed consolidated interim financial statements requires management to use judgments and estimates that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Significant areas of management judgment when applying accounting policies and the significant sources of estimates and uncertainties that have a material impact similar to those shown in the previous year's consolidated financial statements.

5. SUMMARY OF THE SIGNIFICANT ACCOUNTING POLICIES:

The policies used to prepare the condensed consolidated interim financial statements for the nine months period ended **September 30, 2023** are the same as those applied in the consolidated financial statements for the year ended December 31, 2022.

5-1 Financial assets - recognition and measurement

At the initial recognition, all financial assets are proven at the price of their transactions, which represents fair value, unless the arrangement actually consists of a financing transaction. If the arrangement consists of a financing transaction, the item is measured initially at the current value of future flows discounted at the market interest rate of a similar debt instrument.

After initial recognition, the extinguished cost model (or in some cases the cost model by nature and purpose of the financial asset) is applied to measure the underlying financial instruments.

Loans and debt

Receivable loans are non-derivative financial assets with fixed or identifiable payments that are not listed on an active market. They are part of current assets except those with a maturity date of more than 12 months after the end of the reporting period and are classified as non-current assets. Loans and receivables include accounts of commercial debtors and other debtor assets owed by related parties and cash in the fund and at banks.

Trade Receivables

The amounts due from customers for goods sold or services performed in the normal business context are represented. Debtors are proven to be the value of the original invoice minus the amount of doubtful amounts. An estimate of doubtful debts is made when there are fundamental doubts that the full amount cannot be collected. Bad debts are written off when there is no possibility of recovery.

5. SUMMARY OF THE SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

5-1 Financial assets - recognition and measurement (continued)

Decrease in the value of financial assets

At the end of the fiscal year, an assessment is made to ensure that there is no objective evidence of a decrease in the value of any financial asset measured in cost or amortized cost. If there is such evidence of depreciation, the loss of depreciation is recognized by the profit or loss and other comprehensive income statement for that year. The value of the decline in value is determined as follows:

A) For fair-value assets, the depreciation represents the difference between cost and fair value, minus any loss of value previously demonstrated in the consolidated statement of profit or loss and other comprehensive income.

B) For cost-included assets, the depreciation represents the difference between the amount listed and the present value of future cash flows discounted by the current market rate of return from a similar financial asset line.

C) For assets listed at the amortized cost, the decrease in value represents the difference between the amount listed and the present value of future cash flows discounted by the original actual commission rate.

5.2 Financial obligations - recognition and measurement

Financial obligations are classified according to contractual arrangements and include creditors, amounts payable and loans. All financial obligations are initially recognized at fair value, after the first proof of direct transaction costs are proven based on the cost extinguished using the actual commission rate over the life of the instrument and are included in the consolidated statement of profit or loss and other comprehensive income.

Loans are classified as current liabilities unless the company has an unconditional right to postpone payment for at least 12 months after the date of the financial position statement.

5.3 Creditors and amounts payable

Commercial creditors are reimbursed for future payments for goods and services received, whether or not they are invoiced by suppliers.

5.4 Cash and cash equivalents

For the purposes of preparing the consolidated cash flow statement, cash and equivalent cash consists of the Fund, banks.

5.5 Inventory

The inventory of raw materials and spare parts is assessed on the basis of cost and the moving weighted average. The inventory is reduced by the value of stagnant and slow-moving items according to management estimates and inventory movement.

5.6 Property, machinery and equipment

Property, machinery and equipment appear at cost minus accumulated depreciation and any decrease in value. The cost is consumed minus the residual estimated value of property, machinery and equipment (excluding land where it is not consumed) in a fixed-installment manner over its projected production life span using the following annual depreciation ratios:

• Buildings and constructions	%15
• machinery and equipment	%10
• Vehicles and cars	%20
• Furniture	%15
• computers and office equipment	%15

The book value of property, machinery and equipment is audited to ensure a decrease in its value when events or changes in circumstances indicate that the book value cannot be recovered. If such evidence exists and the book value is greater than the recoverable value, the value of property, machinery and equipment is reduced to the recoverable value, which represents the greater value of the equitable value of the asset minus the sale costs or the present value of cash flows for the estimated future benefits of that asset.

5. SUMMARY OF THE SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

5.6 Property, machinery and equipment (continued)

The book value of property, machinery and equipment is audited to ensure a decrease in its value when events or changes in circumstances indicate that the book value cannot be recovered. If such evidence exists and the book value is greater than the recoverable value, the value of property, machinery and equipment is reduced to the recoverable value, which represents the greater value of the equitable value of the asset minus the sale costs or the present value of cash flows for the estimated future benefits of that asset.

The profit or loss resulting from the exclusion or disposal of an asset is determined on the basis of the difference between the net extracted from the exclusion and the book value of the asset and recognizes it in the consolidated statement of profits or losses and other comprehensive income.

Carry repair and maintenance expenses it in the consolidated statement of profits or losses and other comprehensive income. Improvements that substantially increase the value or age of the asset in question are capitalized.

The remaining values, age of use and method of consumption are reviewed at the end of each fiscal year and the impact of any changes in estimate is calculated on the future basis.

Gains or losses resulting from the exclusion of property and equipment, calculated on the basis of the difference between net sales intake and the book value of the asset, are recognized in the consolidated statement of profit or loss and other comprehensive income when the asset is excluded.

At the end of each reporting period, the Company reviews the book values of its assets to determine whether there is any indication that those assets have suffered impairment losses. If such indicators exist, the recoverable value of the asset is estimated in order to determine the extent of loss of depreciation (if any). When it is not possible to estimate the refundable amount for a single asset, the company estimates the refundable amount for the cash generating unit to which the asset belongs. When a reasonable and consistent basis for distribution can be established, the company's assets are also distributed to individual cash generating units, or otherwise distributed to the smallest set of cash units for which a reasonable and consistent basis can be determined.

The refundable amount exceeds the fair value minus the sale cost and the value generated by the use. When estimating the value of use, estimated future cash flows are deducted from their current value using the pre-tax discount rate that reflects current market assessments of the time value of the money and the specific risks of the asset for which future cash flows have not been adjusted.

If the refundable amount (cash generating unit) is less than its book value, the book value (cash generating unit) of the asset is reduced to its refundable amount. A loss of depreciation is listed directly in the consolidated statement of profit or loss and other comprehensive income.

If the loss of value is subsequently reversed, the book value of the asset (or cash generating unit) must be increased to the adjusted estimates of the recoverable amount, but so that the increased book value does not exceed the book value that could have been determined if the loss of value of the asset (or cash generating unit) was not acknowledged in previous years. The loss of impairment is recognized directly in the consolidated statement of profit or loss and other comprehensive income.

5.7 Capital works in progress

The capital works under implementation include all assets that are capitalized for incompleteness as well as existing projects and are proven at cost, including all costs from contractors' dues, material value and consultant fees.

5.8 Borrowing costs

Borrowing costs directly related to the creation of eligible assets, which require a long period of time to be ready for the required use, are capitalized upon completion of all necessary activities related to the preparation of the eligible asset for the purpose for which it was created. All other borrowing costs are established as an allowance and are placed on the consolidated of profits or losses other comprehensive income in the period in which they occurred.

5. SUMMARY OF THE SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

5.9 Employees defined benefits obligations

The company provides severance pay compensation to its employees in accordance with the provisions of the labor and workers' system in Saudi Arabia, which is entitled on the basis of the employee's final wage, length of service and completion of the minimum period of service.

The end-of-service obligation is calculated by estimating the value of future benefits that are due to employees in current and previous periods and the value is deducted to reach the current value.

The Company makes assumptions that are used when determining key elements of costs in order to meet these future liabilities. These assumptions are made after

Consulting the company's actuarial expert and include those used to determine the cost of the normal service as well as the financing elements of liabilities. A qualified actuary calculates the commitment to the specified benefits using the amounts due by unit method.

A reassessment of specific benefit obligations consisting of actuarial profits and losses is recognized directly in the list of other comprehensive income. The Group determines the interest expense on the specific benefit obligations for the year by applying the discount rate used to measure the specific benefit obligations at the beginning of the year after taking into account any change in net benefit obligations specified during the year as a result of contributions and payments for liabilities. Net interest and other expenses related to the benefit plans specified in the consolidated of profits or losses and other comprehensive income statement are recognized.

5.10 Skouk with amortized cost

The Company classifies Skouk at amortized cost using the effective interest rate over the life of the instrument and is included in the statement of profit or loss and other comprehensive income.

5.11 Statutor Reserve

In line with the requirements of the Saudi Arabian Company's corporate system and the company's statutes, the company builds a regular reserve of 10% of the annual net profit until this reserve reaches 30% of the capital. The reserve is not available for distribution as dividends.

5.12 Zakat

- The company is subject to zakat in accordance with the instructions of the General Authority for Zakat and Income in Saudi Arabia and is formed a provision for the estimated zakat.
- Zakat due is calculated on the basis of 2.5% of the zakat or adjusted net income whichever is more.

5.13 Revenue generated

The revenue is measured on the basis of the corresponding that the Company expects to be entitled through the contract with the customer where the amounts collected on behalf of third parties are excluded, the revenue is recognized when control of the goods or service is transferred to the customer.

Selling goods

For the sales of goods to the market, the revenue is recognized when the control of the goods is transferred, and when the goods are shipped to the specified customer's location (delivery) the receivables are recognized by the company when the goods are delivered to the customer where it represents the point of time at which the right to collect the outstanding amounts becomes unconditional, which means that those amounts are due directly when the purchase is made. Revenue is recognized when the control of the goods is transferred, being at the point of purchase of the goods at the point of sale and the agreed value is paid immediately when the customer purchases the goods.

Other income

Other income is recognized in accordance with the principle of entitlement.

5. SUMMARY OF THE SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

5.14 Expenses

Production costs and direct and indirect production-related expenses are classified as sales costs. All other expenses are classified as general and administrative expenses or sales and distribution expenses.

5.15 Foreign Exchange Translation

Transactions made during the period in foreign currencies are transferred to Saudi riyals at the prevailing transfer rates at the date of the transactions.

5.16 Transactions with related parties

Parties are related parties because of their ability to exercise control over the company or to exert significant influence or joint control over the company's financial and operational decisions. Also, companies are related

parties when the company can exert influence, or jointly control the financial and operational decisions of these parties.

Transactions with related parties usually involve the transfer of resources, services, or obligations between the parties.

6. MEASURING FAIR VALUE:

A) Fair value is the amount received when an asset is sold or paid to transfer a liability in an organized transaction between market participants on the date of measurement. Fair value measurement assumes that the transaction to sell assets or to transfer the liabilities line occurs either:

1. In the main market of asset or liabilities. Or
2. In the absence of the main market, in the most preferred market for asset or liabilities.

The fair value of the asset or liability line is measured using assumptions that market participants will use when pricing the asset line or liabilities, assuming that market participants act on the basis of their economic interest.

Measuring the fair value of non-financial assets takes into account the ability of the market participant to achieve economic advantages by using the asset line at the highest and best use of it or by selling it to another market participant who will use the asset line at the highest and best use.

All assets and liabilities for which fair value is measured or disclosed in Consolidated financial statements are classified into the fair value hierarchy, described as follows, based on the minimum input needed to measure fair value as a whole:

Level 1. (unadjusted) market prices in active markets for similar assets or liabilities.

Level 2 - valuation techniques that use the minimum inputs required to measure fair value and directly or indirectly observe

Level 3 - other valuation techniques that use the minimum inputs required to measure fair value but are not based on observable market data.

With regard to the assets and liabilities recognized in the Consolidated financial statements on a recurring basis, the company determines whether the transfers were made between levels in the sequence by reassessing the classification (based on the minimum input needed to measure the fair value as a whole) at the end of each year to prepare the financial reports.

25. EARNING (LOSS) PER SHARE:

The earnings per share and the weighted average number of shares for the nine-month period ending on September 30, 2022 have been adjusted to align with the weighted average number of new shares after its increase during the year 2023. The calculation of the basic / diluted earnings per share is based on the profit(loss) attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding. The earnings per share for the nine months ending on September 30, 2023 AD were calculated on the basis of the weighted average number of outstanding shares at the end of the period. The diluted earnings (loss) per share is the same as the basic earnings(loss) per share since the company has no transferable securities and no diluted financial instruments to exercise. The weighted average number of shares on September 30, 2022 AD has been retroactively adjusted to be in line with the weighted average number of new shares after Stock split during the year 2023 AD (Note 1) as required in accordance with International Accounting Standard No. 33 (Earnings per Share).

27. RISK MANAGEMENT:

Credit risk

Credit risk represents the inability of a counterparty to meet its obligations, causing the other party to incur a financial loss. The Company is committed to managing customer credit risk by setting credit limits for each customer and monitoring existing receivables.

Interest rate risk

Interest rate risk relates to changes in current interest rates when negotiating renegotiation of financial instruments that are affected by current financial conditions in the domestic and global markets. The Company did not have assets of significant value bearing interest during the current and comparative periods.

Liquidity risk

Liquidity risk represents the difficulties faced by the Company in providing the necessary funds to meet the financial instrument commitments. Liquidity risk arises from the inability to sell a financial asset quickly in an amount equal to its fair value. The Company manages liquidity risks by maintaining cash balances with banks and ensuring that adequate facilities are available, if necessary, to cover their short-term liabilities on an ongoing basis.

Currency risk

Currency risk arising from fluctuations in the value of financial instruments is the result of reserve changes in exchange rates. The Corporation is subject to fluctuations in foreign exchange rates during its normal course of business.
