

Gengee

INSFIT joy

TEAM SOLUTION

TRACK YOUR SQUAD LIKE THE PRO

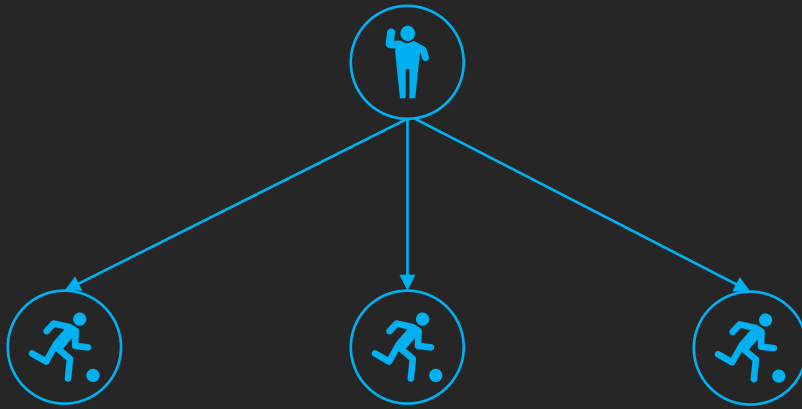

The state-of-the-art football wearable tech that empowers coaches at all levels to measure their squad performance with 16 metrics.

Track your squads with INSAIT JOY Smart Shin Guards and access centralised team dashboards with data visualisation, trends and more to take your teams to the next level.

CENTRALISED APP

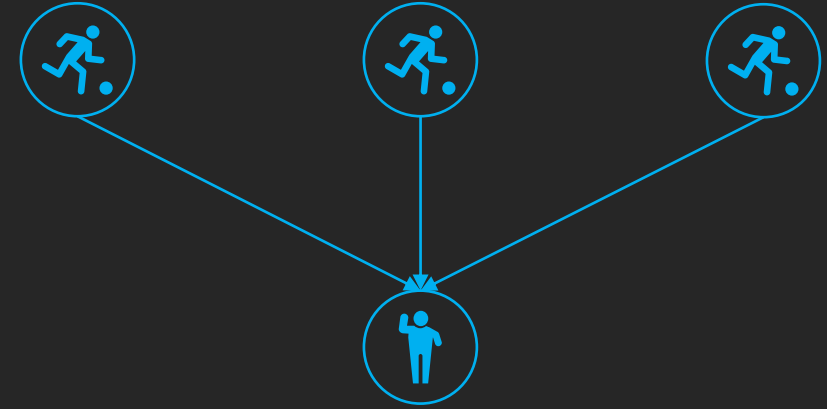

SYNC YOUR SESSIONS

Monitor your squad performance with the centralised INSAIT JOY TEAM app that syncs up all your player's data from multiple INSAIT JOY Smart Shin Guards. Two ways to sync your squad sessions:

Coach-led

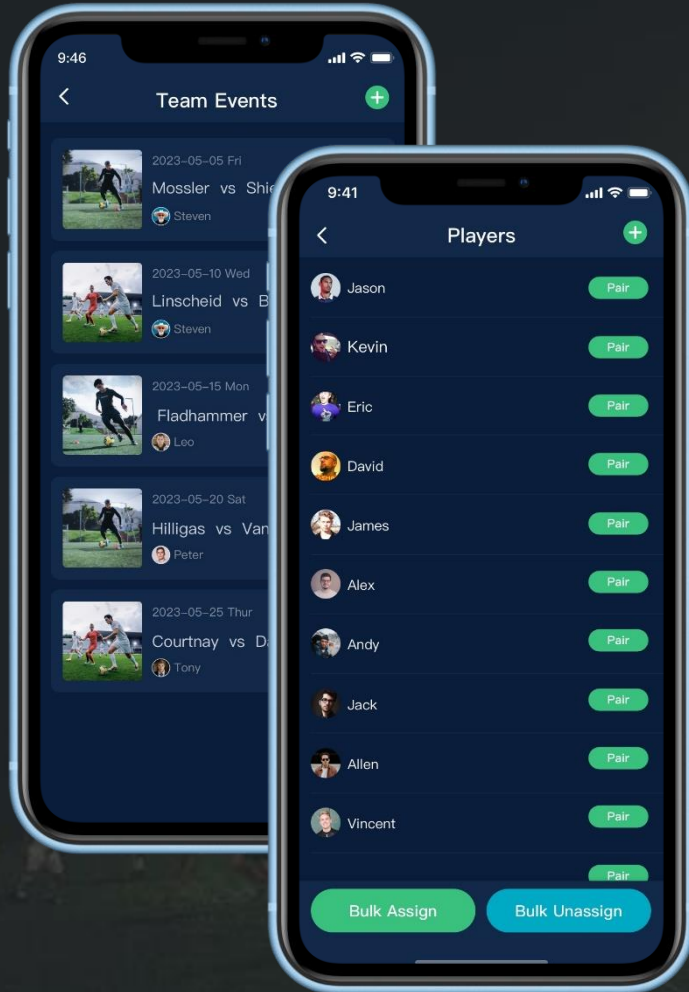

Coach charges, distributes and syncs all devices via INSAIT JOY TEAM, allowing same devices to be used by different players from different squads. Perfect for clubs that want to keep the devices at their control.

Player-led

Players sync their devices with INSAIT JOY app and submit their session metrics to the coach dashboard. Perfect for situations when some players have their own INSAIT JOY Smart Shin Guards.

CENTRALISED APP

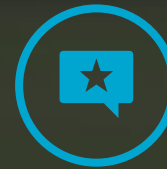

MANAGE YOUR SQUADS

Manage all squads and devices easily with INSAIT JOY TEAM. Schedule your sessions to inform your players with upcoming training and matchday sessions by notification in the INSAIT JOY app.

IN-DEPTH ANALYSIS

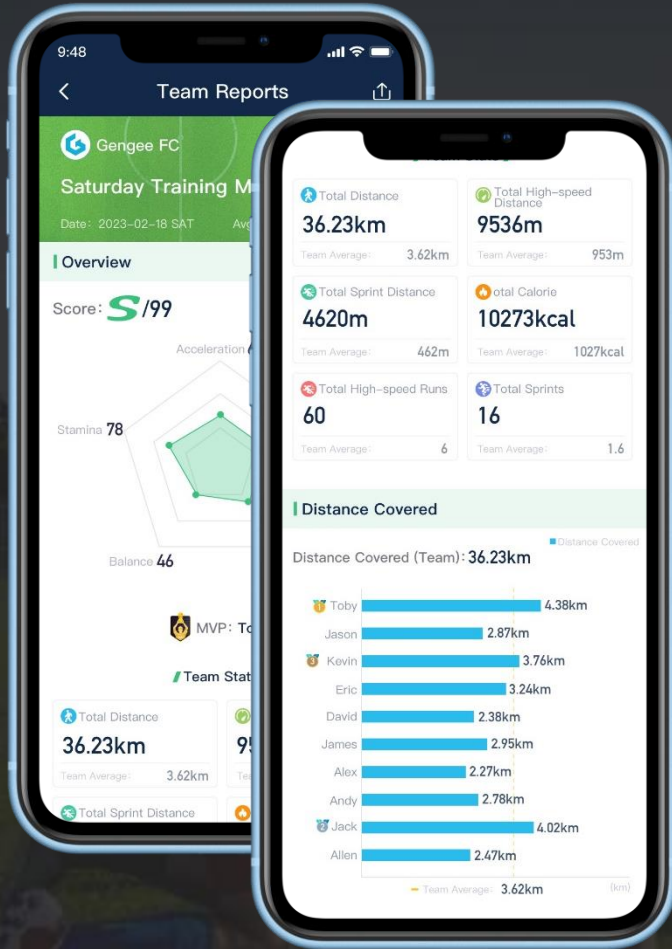

Max. Acceleration	Max. Speed	Use of Right Foot (%)	High-speed Distance
Total Sharp Turns	Total Sprints	Distance Covered per min	Sprint Distance
Total Jumps	Total High-speed Runs	Distance Covered	Calorie
Max Jump	Use of Left Foot (%)	Total Steps	Max. Kicking Power

PERFORMANCE INSIGHTS

Get an insight of your squad performance during training or matches with 16 key metrics including distance covered, sprint distance, max speed and left/right-foot usage, to understand the areas for improvement.

IN-DEPTH ANALYSIS

TEAM DASHBOARDS

Analyse and improve your players over time. View individual metrics, trends and compare your players to develop your team, optimise your training arrangements and maximise squad performance.

DATA-DRIVEN COMMUNICATION

FOR PLAYERS

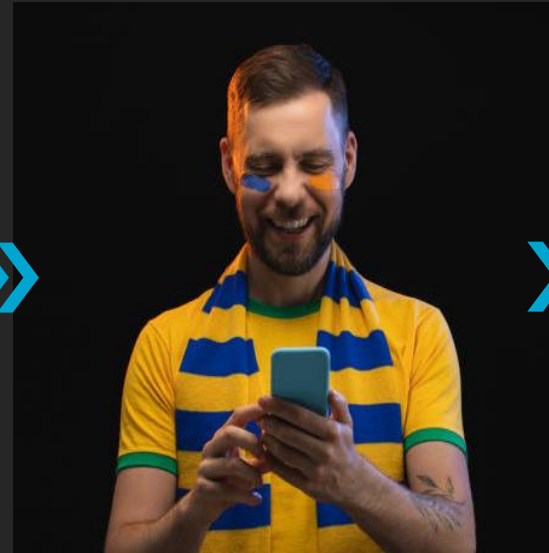

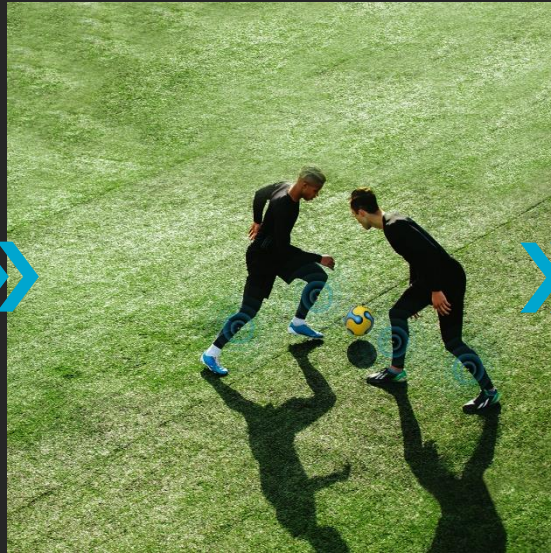

Use comparison tools and reports to provide immediate, tangible and data-driven feedbacks to your players and motivate them to deliver results. Players can register player accounts in INSAIT JOY app or INSAIT JOY TEAM to see how they perform during training and matchdays.

FOR PARENTS

Improve communication between coaches and the parents through data tracking, meanwhile helping families to create meaningful, digitalised records of their children's progresses and achievements throughout their football journey.

HOW IT WORKS

JOIN

Get a coach license to manage your squads, devices and sessions in INSAIT JOY TEAM. Invite players to register in INSAIT JOY app and join the squad.

PLAY

Train or play as usual while INSAIT JOY Smart Shin Guards will measure performance of your players during the session.

SYNC

Sync up data from all INSAIT JOY devices after the session using coach-led or player-led methods.

IMPROVE

Get an insight of your squad performance with visualised data, trends and more to maximise performance over time.

ABOUT GENGEE

Our vision is to empower football players and clubs at all levels with next-generation performance tracking and player development innovations to help unleash their potential.

WHY GENGEE

Having been granted more than 130 patents, we are constantly striving for excellence and innovation. At Gengee, we offer a range of player tracking devices and software applications, ranging from local positioning systems for clubs and academies to wearable tracking devices and smart equipment for aspiring youth and grassroots players.

Our products integrate cutting-edge technologies such as UWB and smart-ball technology, thus empowering coaches at all levels to make critical decisions about tactics, performance, workload, player development and talent identification with quantified, objective and reliable insights.

As a game changer, we aim to accelerate the democratisation of data analytics in football. We focus solely on helping players and coaches to quantify strengths and weaknesses with state-of-the-art solutions, offering players and clubs, especially grassroots and youth, the opportunity to access powerful insights and take their game to the next level.

Performance tracking technology for clubs

INSAIT KS

Real-time Performance Tracking System

INSAIT KS offers real-time measurement on tactical, physical and biometrical data. The use of Ultra-wide Band (UWB) technology allows INSAIT KS to track every action on the field with positional accuracy down to 10cm, providing the most reliable live player & ball tracking for both indoor and outdoor premises in all weather conditions.

Our patent-protected INSAIT KS Smart Football integrates ultra-light UWB position sensors while leaving the roll and flight characteristics of the ball unchanged. Live ball tracking and tactical analysis is made possible for football at all levels.

PROVEN AND TRUSTED

We are proven and trusted by players and sports organisations from all levels across the world

2022 Reimagine Football

Reimagine Football is an initiative started by UEFA, KNVB, City Football Group and Johan Cruyff ArenA in 2020, with the aim of tackling joint challenges in the football industry.

The 2022 initiative “Move to Improve” address the need to create digital football communities and innovative technical solutions as a way to stimulate engagement and well-being of youth players.

As an innovative football tech integrating smart devices and interactive digital community app, INSAIT JOY was selected as one of the finalists of the challenge.
