Smart Shin Guards

GenGee

Where football meets technology.

An evolution in football tracking technology

At Gengee, we are at the forefront of sports technology, specializing in performance tracking and player development innovations. With a vision to empower football players and clubs at all levels, we combine cutting-edge technology with a passion for the game.

Designed to enhance your performance on the field, INSAIT JOY incorporates advanced player tracking technology with a digitalized, interactive platform. Track your game like a Pro, elevate your performance and leave your opponents in awe.

TRACKER

INSAIT JOY is crafted from high-strength, durable materials to ensure CE EN13061 compliance, delivering comfortness, maximized protective coverage, excellent impact absorption and penetration resistance properties.

Ultra-light trackers are designed to be seamlessly integrated into shin guards, leaving you focus on the game without any foreign object feelings.

Seize every moment of the game with 100Hz frequency and 8-hour battery life. Internal processor and storage module constantly analyse your performance, allowing you to gain valuable insights immediately after the session. Works perfectly both indoors or outdoors.
