

FUND OVERVIEW

Alkhabeer Diversified Income Traded Fund ("the Fund") is a closed-ended Shari'a-compliant investment traded fund established in accordance with the applicable laws and regulations of the Kingdom of Saudi Arabia and regulated by the Capital Market Authority (CMA). The Fund's investment objective is to generate periodic income to investors by investing in Shari'a-compliant income generating assets. The Fund Manager "Alkhabeer Capital" plans to invest in Sukuk, trade finance transactions, leasing transactions, income funds and Murabaha transactions, either directly or through investment funds.

ALPHA ⁸	0.33	0.34	-4.00	N/A	N/A
INFORMATION RATIO ⁹	2.54	1.54	-0.20	N/A	N/A

1. For the period from 31 March 2023 to 30 June 2023

2. For the period from 31 December 2022 to 30 March 2023, 31 March 2023 to 30 June 2023

3. For the period from 30 June 2022 to 30 June 2023.

4. Standard Deviation is a measure of risk. It is calculated as any volatility in returns over a period of time. The lower the volatility, the more homogeneous the set of returns.

5. Sharpe Ratio is a risk-adjusted performance measure. It is calculated as the difference as the Fund Manager excess return over the risk-free rate, divided by the Standard Deviation. The greater a portfolio's Sharpe Ratio, the better its risk-adjusted performance.

6. Tracking Error is a measure of risks. It is calculated as the Standard Deviation between the Fund Manager's return and the Benchmark's return. The lower the Tracking Error, the lower the Fund Manager deviates from the Benchmark.

7. Beta is a measure of the average historical sensitivity of the Fund's returns compared to market returns. It is calculated by using the covariance of the Fund and the market on the variance of the market.

8. Alpha measures any excess return achieved by the Fund compared to the performance of the index.

9. Information Ratio is a risk-adjusted performance measure. It is calculated as the active return of the Fund Manager, divided by its tracking error. The higher the Information ratio, the higher the Fund Manager ability to generate excess returns per Unit of excess risk. Knowing that the performance and risk parameters were calculated based on the Unit's trading prices in the market.

FUND HIGHLIGHTS AND ANY FUNDAMENTAL OR NON-FUNDAMENTAL CHANGES AFFECTING THE PERFORMANCE OF THE FUND

There were no fundamental or non-fundamental developments or changes affecting the performance of the Fund.

OVERVIEW OF THE LEASING, TRADE FINANCE AND SUKUK INDUSTRIES

LEASING INDUSTRY OVERVIEW

- The steady rise in short-term interest rates and stubborn inflationary pressures do not seem to have suppressed demand for productive equipment by US businesses.
- According to the 2023 equipment outlook from US Equipment Leasing and Finance Association (ELFA), the top five hottest equipment sectors in 2023 include: construction, machine tools, medical equipment, trucks/trailers, and hi-tech/computers. Notably, construction equipment was the big winner of the survey, ranking first for the 10th consecutive year. The outlook for construction remains good based on pent-up demand for highway, commercial and civil projects.
- The Equipment Leasing and Finance Association's (ELFA) Monthly Leasing and Finance Index (MLFI-25), which reports economic activity from twenty-five companies representing a cross section of the USD 1 trillion equipment finance sector, showed their overall new business volume for May 2023 was USD 9.5 billion, up 1.0% YoY from new business volume in May 2022.

TRADE FINANCE INDUSTRY OVERVIEW

- According to United Nations Conference on Trade and Development (UNCTAD), the global trade reached a record USD 32 trillion in 2022 - trade in goods was about USD 25 trillion (an increase of about 10% from 2021) and trade in services totaled ~USD 7 trillion (an increase of ~15% YoY).
- The global trade growth was positive for both goods and services during first quarter of 2023, according to UNCTAD's latest Global Trade Update issued in June. After the downturn in the second half of 2022, world merchandise trade rebounded in both volume and value. Over the first three months of 2023, trade in goods went up by 1.9% from the last quarter of 2022, adding about USD 100 billion. Global services trade also increased by about USD 50 billion, up by about 2.8% compared to the previous quarter.
- The global trade finance gap continues to widen and is expected to have crossed the USD 2 trillion mark (Asian Development Bank). The weaknesses in global trade and supply chains needs to be addressed by digitalizing trade, widely adopting green trade practices to curtail greenhouse gas emissions and ensure greater transparency for equitable access to finance and drive greater inclusion in the global trading system.

SUKUK INDUSTRY OVERVIEW

- As per Fitch Ratings, global outstanding Sukuk reached USD 765.3 billion in 2022, 7.6% higher than a year ago. The main issuers remain the sovereigns and multilaterals.
- According to S&P Global Ratings, Global Sukuk issuance is forecast to level off in the range of USD 170 billion to USD 175 billion in 2023, after witnessing a 10% fall in 2022 to USD 178 billion. With new issuance expected to exceed maturing Sukuk, the fall in Sukuk volumes in 2023 is anticipated to be at a slower pace as against 2022.
- In terms of performance, further to the worst year in decades in global Sukuk markets in 2022, the Sukuk market has slightly recovered until end of June 2023, Dow Jones Sukuk Index (ex-reinvestment) gained 2.1% YTD, while S&P GCC Sukuk Index was up 1.8% during the same period.
