Independent Auditor's Review Report on the Interim Condensed Consolidated Financial Statements To the Shareholders of Saudi Industrial Investment Group Company (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Industrial Investment Group Company, A Saudi Joint Stock Company ("the Company") and its subsidiary (collectively referred to as "the Group") as at 30 September 2019, and the related interim condensed consolidated statement of income and other comprehensive income for the three and ninemonth periods then ended and the related interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material aspects, in accordance with IAS 34 endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UN-AUDITED)

At 30 September 2019

1 CORPORATE INFORMATION

Saudi Industrial Investment Group Company ("the Company") is a Saudi Joint Stock Company registered in Riyadh city, Kingdom of Saudi Arabia under Commercial Registration number 1010139946 dated on 10 Sha'ban 1416 H (corresponding to 1 January 1996). The registered address of the Company is P.O. Box 99833, Al Riyadh City, Kingdom of Saudi Arabia.

The accompanying interim condensed consolidated financial statements include the activities of the Company and its following direct subsidiary and the two subsidiaries of its subsidiary (collectively referred to as "the Group"):

	Country of incorporation	Percentage of ownership
National Petrochemical Company (A Joint Stock Company) and its subsidiaries	Saudi Arabia	50%
The subsidiaries of National Petrochemical Company are as follows:		
Saudi Polymers Company (A Limited Liability Company)	Saudi Arabia	65%
Gulf Polymers Distribution Company (A Free Zone Limited Liability Company)	United Arab Emirates	65%

National Petrochemical Company ("Petrochem") is a Saudi Joint Stock Company registered under Commercial Registration Number 1010246363 issued in Riyadh on 8 Rabie I 1429 H (corresponding to 16 March 2008), and it was established pursuant to the Ministry of Commerce and Industry's resolution number 53/Q dated 16 Safar 1429 H (corresponding to 23 February 2008).

Saudi Polymers Company ("SPCO") is a limited liability company registered in Jubail, Saudi Arabia under Commercial Registration number 2055008886 dated 29 Dhul-Qadah 1428H (corresponding to 9 December 2007), with a branch in Jubail under Commercial Registration number 2055009065.

During the nine-month period ended 30 September 2019, the partners of SPCO have resolved to decrease the share capital of SPCO from SR 4,800 million to SR 1,406 million. The legal process for the reduction in capital has not been completed till the period end.

Gulf Polymers Distribution Company ("GPDC") FZCO was formed in the Dübai Airport Free Zone on 15 February 2011 as per DAFZA trade license. The registered address of the Company is Dubai Airport Free Zone, Office No.6EA 420, Dubai, United Arab Emirates.

The Group is engaged in the development of the industrial base in the Kingdom of Saudi Arabia, in particular the petrochemical industries and opening the fields of export to foreign markets and to allow the private sector to enter the other industries using the products of the petrochemical industry after obtaining the necessary licenses from the competent authorities.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These interim condensed consolidated financial statements for the nine-month period ended 30 September 2019 have been prepared in accordance with International Accounting Standard, "Interim Financial Reporting" ("IAS 34") as endorsed in Kingdom of Saudi Arabia ("KSA").

The interim condensed consolidated financial statements do not include all the information and disclosures required in annual consolidated financial statements to be prepared in accordance with IFRS that are endorsed in KSA and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2018. The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of new standards effective as of 1 January 2019 (note 3). The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The Group has adopted IFRS 16 "Leases" from 1 January 2019 and accounting policies for this new standard are disclosed in note 3.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UN-AUDITED) (continued)

At 30 September 2019

2 BASIS OF PREPARATION (continued)

2.2 Basis of measurement

The interim condensed consolidated financial statements are prepared under the historical cost convention using the accruals basis of accounting. For employee and other post-employment benefits, actuarial present value calculations are used.

The interim condensed consolidated financial statements are presented in Saudi Riyals (SR), which is also the functional currency of the Group except for the Gulf Polymers Distribution Company FZCO which is translated in these interim condensed consolidated financial statement from US Dollar currency to Saudi Riyals currency on a fixed rate of SR 3.75 to 1 US Dollar. All values are rounded to the nearest thousand (SR '000'), except when otherwise indicated.

2.3 Basis of consolidation

The interim condensed consolidated financial statements of the Group incorporate the financial statements of the Company and its subsidiaries. Subsidiaries are entities controlled by the Group. Control exists when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls investee if, and only if, the Group has all of the following three elements:

- a) Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee),
- b) exposure, or rights, to variable returns from its involvement with the investee and
- c) the ability to use its power over the investee to affect its returns.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Intra-group investment, transactions, balances and unrealised gains or losses on transactions between Group companies are eliminated. The accounting policies of the subsidiaries are consistent with those adopted by the Group.

Non-controlling interests in the results and equity of not wholly owned subsidiaries are shown separately in the interim condensed consolidated statement of income and other comprehensive income and interim condensed consolidated statement of financial position and interim condensed consolidated statement of changes in equity, respectively.

2.4 Approval of interim condensed consolidated financial statements

These interim condensed consolidated financial statements were approved on 27 October 2019 (corresponding to 28 Safar 1441H).

3 NEW ACCOUNTING POLICIES

The Group has adopted IFRS 16 "Leases" from 1 January 2019. As required by IAS 34, the nature and effect of applying this standard is disclosed below. Several other amendments and interpretations apply for the first time in 2019, but do not have an impact on the interim condensed consolidated financial statements of the Group.

3.1 IFRS 16 Leases

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model.

Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Group is the lessor.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UN-AUDITED) (continued)

At 30 September 2019

3 NEW ACCOUNTING POLICIES (continued)

3.1 IFRS 16 Leases (continued)

The Group applied modified retrospective approach, which requires the recognition of the cumulative effect of initially applying IFRS 16 at, 1 January 2019, to the retained earnings and not restate prior years. Since the Group recognized the right-of-use assets at the amount equal to the lease liabilities, there was no impact to the retained earnings. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short- term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

Nature of the effect of adoption of IFRS 16

The Group has lease contracts for various items of land and vehicles. Before the adoption of IFRS 16, the Group classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Group; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments.

Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability. In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in profit or loss on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under prepayments and trade and other payables, respectively.

Upon adoption of IFRS 16, the Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The standard provides specific transition requirements and practical expedients, which has been applied by the Group.

Leases previously accounted for as operating leases

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets were recognised based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics.
- Relied on its assessment of whether leases are onerous immediately before the date of initial application.
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application.
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
- Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UN-AUDITED) (continued)

At 30 September 2019

3 NEW ACCOUNTING POLICIES (continued)

3.1 IFRS 16 Leases (continued)

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in- substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value (i.e., below SR 18,750). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term. The lease payments are discounted using the incremental borrowing rate, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Significant judgement in determining the lease term of contracts with renewal options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

Amounts recognised in the interim condensed consolidated statements of financial position and income and other comprehensive income:

3 NEW ACCOUNTING POLICIES (continued)

3.1 IFRS 16 Leases (continued)

During the nine-month period, depreciation of right-of-use-assets of SR 2,717 thousand have been recognised in interim condensed consolidated statement income and other comprehensive income.

3.2 Significant accounting estimates, assumptions and judgments

The preparation of the Group's interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future. These estimates and assumptions are based upon experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised or in the revision period and future periods if the changed estimates affect both current and future periods except for the significant new judgments and significant sources of estimates and uncertainties related to the application of IFRS 16 as mentioned above in note (3-1).

4 PROPERTY, PLANT AND EQUIPMENT

The movements for the Group's property, plant and equipment were as follows:

	Nine-month perio Septemb	
	2019 SR "000" (un-audited)	2018 SR "000" (un-audited)
Net book value at the beginning of the period Additions during the period Net book value of the disposals during the period Net book value of the write off during the period Depreciation charged during the period	15,020,745 25,824 (11,228) - (648,050)	16,071,975 45,575 (778) (112) (661,784)
Net book value at the end of the period	14,387,291	15,454,876

Part of the Group's property, plant and equipment are secured by (i) liens against term loan from Saudi Industrial Development Fund and (ii) assignment of residual proceeds against term loans from consortium of commercial banks and Public Investments Fund ("PIF").

5 INVESTMENT IN JOINT VENTURES

The joint ventures are the following companies established in the Kingdom of Saudi Arabia as limited liability companies:

	Percentage of ownership
Saudi Chevron Phillips Company	50%
Jubail Chevron Phillips Company	50%

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UN-AUDITED) (continued)
