Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

2- BASIS OF PREPARATION

These condensed consolidated interim financial statements for the three-month and six-month periods ended 30 June 2021 are prepared in accordance with IAS 34 Interim Financial Reporting as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These condensed consolidated interim financial statements should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2020 ('last annual consolidated financial statements'). These condensed consolidated interim financial statements do not include all the information and disclosures required for a complete set of financial statements prepared in accordance with IFRS as endorsed in the Kingdom of Saudi Arabia. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

a) Basis of measurement

The condensed consolidated interim financial statements are prepared under the historical cost convention, except for the following:

- Financial assets at fair value through Other Comprehensive Income ("FVOCI") are measured at fair value.
- Financial assets at fair value through profit or loss ("FVTPL") are measured at fair value.
- Defined benefit obligation is recognized at the present value of future obligations using the Projected Unit Credit Method.

The condensed consolidated interim financial statements have been prepared using accrual basis of accounting and going concern concept.

b) Functional and presentation currency

The condensed consolidated interim financial statements are presented in Saudi Riyal ("SR"), which is the functional currency of the Group. All amounts are shown in full unless otherwise indicated.

USE OF JUDGEMENTS AND ESTIMATES

In preparing these condensed consolidated interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements.

4- ACCOUNTING POLICIES

3_

The accounting policies applied in these condensed consolidated interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2020. Accounting policies and key judgment areas adopted in preparation of these condensed consolidated interim financial statements are described in note 4 of the Group's consolidated financial statements for the year ended 31 December 2020, except for the adopting of new standards effective as at 1 January 2021.

5- FAIR VALUE MEASUREMENTS

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values for financial assets and liabilities. This includes a team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Financial Officer.

The team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the Standards, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Group's audit committee.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

6- STANDARDS ISSUED BUT NOT YET EFFECTIVE

The below pronouncements are effective for subsequent annual periods and earlier application is permitted. The Company has not early adopted the new or revised standards in the preparation of these financial statements. The impact of these standards on the Group is not expected to be material when the below standards and amendments are applied.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (Continued)

For the six-month period ended 30 June 2021

19 SEGMENT INFORMATION (CONTINUED)

Revenue recognition time:

The Group recognizes revenue as per the terms and conditions in the contracts with customers for media, advertising, publishing, and other segments services as follows:

Public relations and advertising

Revenue is recognized over time and on a "stand-ready" basis. The performance obligations are standready obligations and generally agreed that the nature of the promise in a stand-ready obligation is the promise that the customer will have access to a good or service. The standard describes a stand-ready obligation as a promised service that consists of standing ready to provide goods or services or making goods or services available for a customer to use as and when it decides to do so.

Printing and packaging

Revenue is recognized when customers obtain control of goods when the goods are delivered to customers and have been accepted at their premises. Invoices are generated and revenue is recognized at that point in time.

Some contracts allow customers to return goods and replace them with other new goods, and no refunds are permitted. Revenue is recognized when the goods are delivered and have been accepted by customers. With respect to contracts that allow customers to return goods, revenue is recognized only to the extent that it is highly probable that a significant reversal will not occur in the amount of the accumulated revenue.

Other segments:

Advertising revenue is billed on a monthly basis and payments are due shortly after the bill date. Such services are recognised as a performance obligation satisfied at a point in time. A receivable is recognised by the Group when the goods or services are delivered or rendered as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Subscription revenues are billed and collected in advance. Revenue billed in advance of the rendering of services is deferred and presented in the statement of financial position as contract liabilities. Subscription revenue is recognised over time as the Group satisfies its performance obligations over time. The transaction price allocated to these subscriptions is recognised as a contract liability at the time of the initial sales transaction and is released on a straight-line basis over the period of service.

Penalties on overdue trade receivable are recognized on an accrual basis using the rates stipulated in the service agreements.
