INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS

**TO THE UNITHOLDERS OF
 RIYAD BLUE CHIP EQUITY FUND
 Kingdom of Saudi Arabia**

INTRODUCTION

We have reviewed the accompanying interim statement of financial position of RIYAD BLUE CHIP EQUITY FUND (the "Fund") managed by Riyadh Capital (the "Fund Manager") as at 30 June 2020 and the related interim statement of comprehensive (loss) / income, interim statement of changes in net assets (Equity) attributable to the unitholders and interim statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes (the "interim condensed financial statements"). Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagement 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", that is endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

Riyad Blue Chip Equity Fund

Open-Ended Fund

(Managed by Riyadh Capital)

Notes to the interim condensed financial statements (unaudited)

For the six-month period ended 30 June 2020

1 FUND AND ITS ACTIVITIES

The Riyadh Blue Chip Equity Fund (the “Fund”) is an equity Fund managed through an agreement between Riyadh Capital (the “Fund Manager”) and the Fund investors (the “Unitholders”). The Fund invests primarily in Blue Chip companies with some investments in strong and promising smaller companies’ shares to maximize returns. The Fund Manager aims at outperforming the Fund benchmark.

In dealing with the Unitholders, the Fund Manager considers the Fund as an independent accounting unit. Accordingly, the Fund Manager prepares a separate financial statement for the Fund.

The management of the Fund is the responsibility of the Fund Manager. However, in accordance with the Fund’s Agreement, the Fund Manager can delegate or assign its duties to one or more of the financial institutions in the Kingdom of Saudi Arabia and overseas.

Capital Market Authority (“CMA”) approval for the establishment of the Fund was granted in its letter number MAI/95 dated 6 Muharram 1422H (corresponding to 31 March 2001). The Fund commenced its operations on 31 December 2000.

The Fund is governed by the Investment Fund Regulations (the “Regulations”) issued by (“CMA”) on 3 Dhul Hijja 1427H (corresponding to 24 December 2006) which was amended on 16 Shaban 1437H (corresponding to 23 May 2016), detailing requirements for all funds within the Kingdom of Saudi Arabia.

2 BASIS OF PREPARATION AND CHANGES TO ACCOUNTING POLICIES

2.1 Statement of compliance

These interim condensed financial statements have been prepared in accordance with ‘International Accounting Standard 34 - Interim Financial Reporting (“IAS 34”)’ that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Certified Public Accountants (“SOCPA”).

These interim condensed financial statements do not include all of the information required in annual financial statements and should be read in conjunction with the annual financial statements of the Fund for the year ended 31 December 2019. The results for the six-month period ended 30 June 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020.

Assets and liabilities in the interim condensed statement of financial position are presented in the order of liquidity.

2.2 Basis of measurement

The interim condensed financial statements have been prepared on a historical cost basis, using the accrual basis of accounting except for the investments carried at fair value through profit or loss that are measured at fair value.

2 BASIS OF PREPARATION AND CHANGES TO ACCOUNTING POLICIES
(Continued)

2.3 Functional and presentation currency

Items included in the interim condensed financial statements are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). These interim condensed financial statements are presented in Saudi Arabian Riyal (“SAR”) which is the Fund’s functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into SAR using the exchange rates prevailing at the date of transactions. Foreign currency assets and liabilities are translated into SAR using the exchange rates

Prevailing at the interim condensed statement of financial position date. Foreign exchange gains and losses, if any, arising from translation are included in the interim condensed statement of comprehensive income.

2.4 New standards, interpretations and amendments

The accounting policies used in the preparation of these interim condensed financial statements are consistent with those used and disclosed in the annual financial statements of the Fund for the year ended 31 December 2019. There are new standards, amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed financial statements of the Fund.

There are several other amendments and interpretations that are issued, but not yet effective, up to the date of issuance of the Fund’s interim condensed financial statements. In the opinion of the Fund Board, these will have no significant impact on the interim condensed financial statements of the Fund. The Fund intends to adopt those amendments and interpretations, if applicable.

3 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

4 MANAGEMENT FEE, ADMINISTRATION AND OTHER CHARGES

On each Valuation day, the Fund Manager charges the Fund, a management fee at the rate of 1.5% percent per annum of the Fund's net asset value. The Fund Manager also recovers from the Fund any other expenses incurred on behalf of the Fund such as audit and legal fees, board compensation and other similar charges. These charges are not expected to exceed in total 0.2 percent per annum of the Fund’s net assets value.

In addition, on daily basis the Fund Manager charges the Fund, custody and administration fees each at the rate of 0.035% percent and 0.2% percent per annum of the Fund’s net asset value respectively.

10 FAIR VALUE

All assets and liabilities for which fair value is measured or disclosed in the interim condensed financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Fund classifies all of its financial assets except for those carried at amortized cost, at fair value as level 1.

For assets and liabilities that are measured at fair value on a recurring basis, the Fund identifies transfers between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole), and deems transfers to have occurred at the end of the reporting period during which the change has occurred. During the period, there was no transfer in fair value hierarchy for the financial assets held at fair value through profit or loss.

Other financial instruments such as, cash balance carried at amortized cost. Carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties.

11 FINANCIAL RISK MANAGEMENT

11.1 Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk, credit risk, liquidity risk and operational risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risks is primarily set up to be performed based on the limits established by the Fund Board. The Fund has its Terms and Conditions document that set out its overall business strategies, its tolerance of risks and its general risk management philosophy and is obliged to take actions to rebalance the portfolio in line with the investment guidelines.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

11 FINANCIAL RISK MANAGEMENT (continued)

11.1 Financial risk factors (continued)

(a) Market risk

(i) Price risk

Price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements.

The price risk arises primarily from uncertainty about the future prices of financial instruments that the Fund holds. The Fund Manager diversifies the investment portfolio and closely monitors the price movement of its investments in financial instruments. As of the statement of financial position date, Fund has equity investments.

The effect on the net assets value (as a result of the change in the fair value of investments as at 30 June) due to a reasonably possible change in equity indices based on the industry concentration, with all other variables held constants is as follows:

	30 June 2020		31 December 2019

(b) Credit risk

The Fund is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Fund is exposed to credit risk for its cash balance and investments amortized cost as follows:

	30 June 2020	31 December 2019

11 FINANCIAL RISK MANAGEMENT (continued)

11.1 Financial risk factors (continued)

(b) Credit risk (continued)

The carrying amount of financial assets represents the maximum credit exposure.

Credit risk on cash balances is limited as:

- All financial assets of Fund's held with counterparties with sound credit ratings.
- The fund applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all financial assets.

Its Fund's policy to enter into financial instrument contracts with reputable counterparties. The Fund seeks to limit its credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties.

(c) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units on Monday and Thursday, therefore, exposed to the liquidity risk of meeting unitholder redemptions on these days. The Fund's financial liabilities primarily consist of payables which are expected to be settled within one month from the statement of financial position date.

The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by taking short term loans from the Fund Manager. The expected maturity of the assets and liabilities of the Fund is less than 12 months.

(d) Operational risk

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to unitholders.

12 LAST VALUATION DAY

The last valuation day of the period was 30 June 2020 (30 June 2019).

13 APPROVAL OF THE INTERIM CONDENSED FINANCIAL STATEMENTS

These interim condensed financial statements were approved and authorized for issue by the Fund Board on 25 August 2020 (corresponding to 6 Muharram 1442H).
