**TO THE UNITHOLDERS**  
**ALJAZIRA SAUDI RIYAL MURABAHA FUND**  
**MANAGED BY ALJAZIRA CAPITAL**

**Riyadh, Kingdom of Saudi Arabia**

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the accompanying financial statements of **ALJAZIRA SAUDI RIYAL MURABAHA FUND** ("the Fund"), being managed by Al Jazira Capital (the "Fund Manager"), which comprise of the financial position as at 31 December 2021 and the statements of comprehensive income, statement of changes in net assets (Equity) attributable to the unitholders and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements statement present fairly, in all material respects, the Financial Position of the Fund as at 31 December 2021, and it's financial performance and it's cash flows for the year then ended in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

#### **Basis for Unqualified Opinion**

We conducted our audit in accordance with International Standards on Auditing ("ISA") that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the professional code of conduct and ethics that are endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the Fund's financial statements and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our opinion.

#### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by SOCPA a and the Fund's Terms and Condition and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Fund management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance the Board of Directors. are responsible for overseeing the Fund's financial reporting process.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

**TO THE UNITHOLDERS**  
**ALJAZIRA SAUDI RIYAL MURABAHA FUND**  
**MANAGED BY ALJAZIRA CAPITAL**  
**Riyadh, Kingdom of Saudi Arabia**

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISA that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in manner that achieves fair presentation.

# **ALJAZIRA SAUDI RIYAL MURABAHA FUND**

## **An Open-Ended Mutual Fund**

(Managed by Aljazira Capital Company)

### **NOTES TO THE FINANCIAL STATEMENTS**

**For year ended 31 December 2021**

(Amounts in Saudi Arabian Riyals)

#### **1 LEGAL STATUS AND PRINCIPAL ACTIVITIES**

Aljazira Saudi Riyal Murabaha Fund (the “Fund”) is an open-ended, Saudi investment fund established and managed through an agreement between Aljazira Capital Company – a Saudi Closed Joint Stock Company (the “Fund Manager”) and the investors (the “Unitholders”). The Fund Manager is a wholly owned subsidiary of Bank Aljazira (the “Bank”). The Capital Market Authority (“CMA”) approval to continue issuing units to public was granted through its letter no 7720/5 dated 12 Muharram 1431H (corresponding to 29 December 2009). The Fund commenced its operations on 26 November 2000.

The Fund operates under the terms and conditions contained in its prospectus with the prime objective of providing the investors with the opportunities to achieve profits from Murabaha placements and deposits and Islamic deposits with a low risk. The Fund’s net income is reinvested in the Fund, which is reflected in the net assets (equity) attributable to each unit.

The Fund Manager and administrator of the Fund is Aljazira Capital Company. The Custodian of the Fund is Northern Trust Securities.

The Fund is governed by the Investment Fund Regulations (the “Regulations”) published by CMA on 3 Dhul Hijja 1427H (corresponding to 24 December 2006) thereafter amended on 16 Sha’ban 1437H (corresponding to 23 May 2016). The regulation was further amended (the “Amended Regulations”) on 17 Rajab 1442H (corresponding to 1 March 2021) detailing requirements for all funds within the Kingdom of Saudi Arabia. The Amended Regulations have effective dates starting from 19 Ramadan 1442H (corresponding to 1 May 2021).

#### **SUBSCRIPTION / REDEMPTION**

Subscription / redemption requests are accepted on all days on which Tadawul is open. The value of the Fund’s portfolio is determined from Sunday to Wednesday. The net asset value of the Fund for the purpose of purchase or sale of units is determined by dividing the net assets (fair value of the Fund’s assets minus Fund’s liabilities) of the Fund by the total number of outstanding Fund units on the following day.

#### **2 BASIS OF PREPARATION**

The principal accounting policies applied in the preparation of these financial statements are set out below.

##### **2.1 Statement of compliance**

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Chartered and Professional Accountants (“SOCPA”).

##### **2.2 Basis of measurement**

These financial statements have been prepared on a historical cost basis, except for certain investments that are measured at fair value.

The Fund does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, assets and liabilities are presented in order of liquidity.

##### **2.3 Functional and presentation currency**

Items included in these financial statements are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). These financial statements are presented in Saudi Arabian Riyals (SAR) which is the Fund’s functional and presentation currency.

##### *Transactions and balances*

Foreign currency transactions are translated into SAR using the exchange rates prevailing at the date of transactions. Foreign currency assets and liabilities are translated into SAR using the exchange rates prevailing at date of the statement of financial position. Foreign exchange gains and losses, if any, arising from translation are included in the statement of comprehensive income.

# **ALJAZIRA SAUDI RIYAL MURABAHA FUND**

## **An Open-Ended Mutual Fund**

(Managed by Aljazira Capital Company)

---

### **NOTES TO THE FINANCIAL STATEMENTS**

**For the year ended 31 December 2021**

(Amounts in Saudi Arabian Riyals)

#### **3 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS**

The preparation of these financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In the process of applying the Fund's accounting policies, management has made the following estimate and judgment which are significant to these financial statements:

##### **3.1 Going concern**

The Fund's management has made an assessment of the Fund's ability to continue as a going concern and is satisfied that the Fund has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt on the Fund's ability to continue as a going concern. Accordingly, these financial statements have been prepared on a going concern basis.

##### **3.2 Expected credit loss**

In the preparation of these financial statements, management has made a number of significant judgments required in applying the accounting requirements for measuring expected credit loss (ECL), such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing group of similar financial assets for the purposes of measuring ECL.

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### 4.1 New standards, interpretations and amendments

The accounting policies used in the preparation of these financial statements are consistent with those used and disclosed in the annual financial statements of the Fund for the year ended 31 December 2020. There are new standards, amendments and interpretations apply for the first time in 2021, but do not have an impact on the financial statements of the Fund.

There are several other amendments and interpretations that are issued, but not yet effective, up to the date of issuance of the Fund's financial statements. In the opinion of the Fund's Board, these will have no significant impact on the financial statements of the Fund. The Fund intends to adopt those amendments and interpretations, if applicable.

##### 4.1.1 New amendments to standards issued and applied effective 1 January 2021

###### Amendments

A number of new amendments to standards, enlisted below, are effective this year but they do not have a material effect on the Fund's financial statements, except for where referenced below.

Amendments to standard	Description	Effective for annual years beginning on or after	Summary of the amendment
IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16	Interest Rate Benchmark Reform – Phase 2	1 January 2021	These amendments modify specific hedge accounting requirements to allow hedge accounting to continue for affected hedges during the period of uncertainty before the hedged items or hedging instruments affected by the current interest rate benchmarks are amended as a result of the on-going interest rate benchmark reforms. The amendments also introduce new disclosure requirements to IFRS 7 for hedging relationships that are subject to the exceptions introduced by the amendments to IFRS 9.
IFRS 16	Amendments to IFRS 16 Leasing - Covid-19 Related Rent Concessions	1 April 2021	This amendment extends the exemption from assessing whether a COVID-19-related rent concession is a lease modification for payments originally due on or before 30 June 2022 (rather than payment due on or before 30 June 2021).

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### 4.1 New standards, interpretations and amendments (continued)

##### 4.1.2 New standards, amendments and revised IFRS issued but not yet effective

The Fund has not applied the following new and revised IFRSs and amendments to IFRS that have been issued but are not yet effective.

Amendments to standard	Description	Effective for annual years beginning on or after	Summary of the amendment
IAS 37	Onerous Contracts Cost of Fulfilling Contract	1 January 2022	The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract. These amendments apply to contracts for which the entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which the entity first applies the amendments.
IFRS 16, IFRS 9, IAS 41 and IFRS 1	Annual Improvements to IFRS Standards 2018–2020	1 January 2022	IFRS 16: The amendment removes the illustration of the reimbursement of leasehold improvements IFRS 9: The amendment clarifies that in applying the '10 per cent' test to assess whether to derecognize a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender. The amendment is to be applied prospectively to modifications and exchanges that occur on or after the date the entity first applies the amendment. IAS 41: The amendment removes the requirement in IAS 41 for entities to exclude cash flows for taxation when measuring fair value. IFRS 1: The amendment provides additional relief to a subsidiary which becomes a first-time adopter later than its parent in respect of accounting for cumulative translation difference.
IAS 16	Property, Plant and Equipment: Proceeds before Intended Use	1 January 2022	The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before that asset is available for use. Additionally, the amendments also clarify the meaning of 'testing whether an asset is functioning properly'.
IFRS 3	Reference to the Conceptual Framework	1 January 2022	The amendment as a whole updated IFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework.
IFRS 17	Insurance Contracts	1 January 2023	This is comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 (along with its subsequent amendments) will replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### 4.1 New standards, interpretations and amendments (continued)

##### 4.1.2 New standards, amendments and revised IFRS issued but not yet effective (continued)

Amendments to standard	Description	Effective for annual years beginning on or after	Summary of the amendment
IAS 1	Classification of Liabilities as Current or Non-current	1 January 2023	The amendment has clarified what is meant by a right to defer settlement, that a right to defer must exist at the end of the reporting period, that classification is unaffected by the likelihood that an entity will exercise its deferral right and that only if an embedded derivative in a convertible liability is itself an equity instrument the terms of a liability would not impact its classification.
IAS 1 and IFRS Practice Statement 2	Disclosure of accounting policies	1 January 2023	This amendment deals with assisting entities to decide which accounting policies to disclose in their financial statements
IAS 8	Amendment to definition of accounting estimate	1 January 2023	This amendments regarding the definition of accounting estimates to help entities to distinguish between accounting policies and accounting estimates.
IAS 12	Income taxes	1 January 2023	This amendment deals with clarification regarding accounting of deferred tax on transactions such as leases and decommissioning obligations
Amendment to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	N/A	The amendments to IFRS 10 and IAS 28 deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary.

Management anticipates that these new standards interpretations and amendments will be adopted in the Funds's financial statements as and when they are applicable and adoption of these interpretations and amendments may have no material impact on the financial statements of the Fund in the period of their initial application.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### 4.2 Cash and cash equivalents

Cash and cash equivalents of the Fund comprise balances held with the bank and murabaha placements with original maturity of 3 months or less, if any. Cash and cash equivalents are carried at amortized cost in the statement of financial position.

##### 4.3 Financial instruments

###### 4.3.1 Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Fund becomes a party to the contractual provisions of the instrument.

At initial recognition, the Fund measures a financial asset or financial liability at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income. Immediately after initial recognition, an expected credit loss allowance (ECL), if any, is recognized for financial assets measured at amortized cost, as described in Note 3.2, which results in an accounting loss being recognized in the statement of comprehensive income when an asset is newly originated.

###### 4.3.2 Classification and measurement of financial assets

###### *Classification of financial assets*

On initial recognition, a financial asset is classified and measured at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL").

###### *Financial asset at amortized cost*

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### *Financial asset at fair value through other comprehensive income ("FVOCI")*

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Fund Manager may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

###### *Financial asset at fair value through profit or loss ("FVTPL")*

All financial assets not classified as measured at amortized cost or FVOCI are measured at FVTPL.

The Fund classifies its financial assets either as subsequently measured at amortized cost or measured at fair value through profit or loss.

The classification requirements for debt instruments are described below.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### 4.3 Financial instruments (Continued)

##### 4.3.2 Classification and measurement of financial assets (Continued)

###### Debt instruments

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as Murabaha contracts and Sukuks.

Classification and subsequent measurement of debt instruments depend on:

- The Fund's business model for managing the asset; and
- The cash flow characteristics of the asset.

Based on these factors, the Fund classifies its debt instruments into one of the following three measurement categories:

**Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and profit (SPPP), and that are not designated at FVTPL, are measured at amortized cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized and measured as described in Note 3.2. Profit earned from these financial assets is recognized in the statement of comprehensive income using the effective profit rate method.

**Fair value through profit or loss (FVTPL):** If a financial asset's cash flows do not represent solely SPPP or if it not held within the held to collect or the held to collect and sell business model, then it is measured at FVTPL.

A gain or loss on a debt investment measured at FVTPL is recognized in the statement of comprehensive income, within "Net gain / (loss) in investments mandatorily measured at FVTPL", in the period in which it arises. A gain or loss from debt instruments that were designated at fair value or which are not held for trading are presented separately from debt investments that are mandatorily measured at fair value through profit or loss, within "Net gain / (loss) in investments designated at FVTPL". Profit earned from these financial assets is recognized in the statement of comprehensive income using the effective profit rate method.

**Business model:** The business model reflects how the Fund manages the assets in order to generate cash flows. That is, whether the Fund's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g., financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Fund in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is internally evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These assets are classified in 'other' business model and measured at FVTPL.

**SPPP:** Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Fund assesses whether the financial instruments' cash flows represent solely payment of principal and profit (the "SPPP" test). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement i.e., profit includes only consideration for the time value of resources, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### 4.3 Financial instruments (Continued)

##### 4.3.2 Classification and measurement of financial assets (Continued)

###### Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Fund classifies its equity instruments at fair value through profit or loss (FVTPL). The Fund subsequently measures all equity investments at fair value through profit or loss, except where the Fund Manager has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. The Fund's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to trade. When this election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to the statement of comprehensive income, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in the statement of comprehensive income when the Fund's right to receive payments is established.

##### 4.3.3 Derecognition

A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is derecognized where the rights to receive cash flows from the asset have expired, or the Fund has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and the Fund has:

- (a) Transferred substantially all of the risks and rewards of the asset or
- (b) Neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Fund has transferred its right to receive cash flows from an asset (or has entered into a pass-through arrangement) and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Fund's continuing involvement in the asset. In that case, the Fund also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Fund has retained. The Fund derecognizes a financial liability when the obligation under the liability is discharged, cancelled or expired.

##### 4.3.4 Impairment of financial assets

The Fund recognizes loss allowances for ECL on financial assets measured at amortized cost and debt investments measured at FVOCI.

The Fund measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e., the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

---

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### 4.3 Financial instruments (Continued)

##### 4.3.4 Impairment of financial assets (Continued)

###### *Significant increase in credit risk*

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

The Fund assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. One of the key quantitative indicators used by the Fund is the relative downgrade of the internal rating of the borrower and thereby the consequent change in the PD.

##### 4.3.5 Financial liabilities

The Fund classifies its financial liabilities at amortized cost unless it has designated liabilities at FVTPL.

##### 4.3.6 Trade date accounting

All regular way purchases and sales of financial assets are recognized / derecognized on the trade date (i.e., the date that the fund commits to purchase or sell the assets). Regular way purchases or sales are purchases or sales of financial assets that require settlement of assets within the time frame generally established by regulation or convention in the marketplace.

##### 4.3.7 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

This is generally not the case with master netting agreements unless one party to the agreement defaults and the related assets and liabilities are presented gross in the statement of financial position.

#### 4.4 Receivables

Receivables are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortized cost using effective profit rate method. Loss allowance for receivables is always measured at an amount equal to lifetime expected credit losses.

# **ALJAZIRA SAUDI RIYAL MURABAHA FUND**

## **An Open-Ended Mutual Fund**

(Managed by Aljazira Capital Company)

### **NOTES TO THE FINANCIAL STATEMENTS**

**For the year ended 31 December 2021**

(Amounts in Saudi Arabian Riyals)

#### **4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

##### **4.5 Redeemable Units**

Redeemable units are classified as equity instruments when:

- The redeemable units entitle the holder to a pro rata share of the Fund's net assets (equity) in the event of the Fund's liquidation
- The redeemable units are in the class of instruments that is subordinate to all other classes of instruments
- All redeemable units in the class of instruments that is subordinate to all other classes of instruments have identical features
- The redeemable units do not include any contractual obligation to deliver cash or another financial asset other than the holder's rights to a pro rata share of the Fund's net assets (equity).
- The total expected cash flows attributable to the redeemable units over the life of the instrument are based substantially on the profit or loss, the change in the recognized net assets (equity) or the change in the fair value of the recognized and unrecognized net assets (equity) of the Fund over the life of the instrument.

In addition to the redeemable units having all of the above features, the Fund must have no other financial instrument or contract that has:

- Total cash flows based substantially on the profit or loss, the change in the recognized net assets (equity) or the change in the fair value of the recognized and unrecognized net assets (equity) of the Fund.
- The effect of substantially restricting or fixing the residual return to the redeemable unitholders.

The Fund continuously assesses the classification of the redeemable units. If the redeemable units cease to have all the features, or meet all the conditions set out, to be classified as equity, the Fund will reclassify them as financial liabilities and measure them at fair value at the date of reclassification, with any differences from the previous carrying amount recognized in equity. If the redeemable units subsequently have all the features and meet the conditions to be classified as equity, the Fund will reclassify them as equity instruments and measure them at the carrying amount of the liabilities at the date of the reclassification.

The issuance, acquisition and cancellation of redeemable units are accounted for as equity transactions.

No gain or loss is recognized in the statement of comprehensive income on the purchase, issuance or cancellation of the Fund's own equity instruments.

##### **4.6 Accrued expenses and other liabilities**

Accrued expenses and other payables are recognized initially at fair value and subsequently measured at amortized cost using the effective profit rate method.

##### **4.7 Net gain or loss on financial assets and liabilities at Fair Value through Profit or Loss ("FVTPL")**

Net gains or losses on financial assets and liabilities at FVTPL are changes in the fair value of financial assets held for trading or designated upon initial recognition as at FVTPL and exclude interest and dividend income and expenses.

Unrealized gains and losses comprise changes in the fair value of financial instruments for the year and from reversal of the prior period's unrealized gains and losses for financial instruments which were realized in the reporting period. Realized gains and losses on disposals of financial instruments classified as at FVTPL are calculated using the weighted average cost method. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

# **ALJAZIRA SAUDI RIYAL MURABAHA FUND**

## **An Open-Ended Mutual Fund**

(Managed by Aljazira Capital Company)

### **NOTES TO THE FINANCIAL STATEMENTS**

**For the year ended 31 December 2021**

(Amounts in Saudi Arabian Riyals)

#### **4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

##### **4.8 Income recognition**

Special commission income presented in the statement of comprehensive income comprise commission on financial assets measured at amortized cost calculated on an effective yield basis.

The 'effective yield rate' is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial instrument:

- to the carrying amount of the financial assets; or
- the amortized cost of the financial liability.

In calculating special commission income, the effective yield rate is applied to the gross carrying amount of the asset (when the assets are not credit impaired). However, for financial assets that have become credit-impaired subsequent to initial recognition, special commission income is calculated by applying the effective profit rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of special commission income reverts to the gross basis.

##### **4.9 Dividend income**

Dividend income, if any is recognized in the statement of comprehensive income on the date on which the right to receive the payment for dividend is established. For quoted equity securities, this is usually the ex-dividend date. Dividend income from equity securities designated as at FVTPL, is recognized in the statement of comprehensive income in a separate line item

##### **4.10 Transaction costs**

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognized in statement of comprehensive income or loss as an expense.

##### **4.11 Management fees**

Management fee is calculated at rate mentioned in terms and conditions of the Fund and is payable quarterly in arrears.

##### **4.12 Other expenses**

Other expenses are charged at rates / amounts within limits mentioned in terms and conditions of the Fund.

##### **4.13 Zakat / Taxation**

Zakat / taxation is the obligation of the Unitholders and is not provided for in these financial statements.

##### **4.14 Net assets value**

The net assets value per unit disclosed in the financial statements is calculated by dividing the net assets of the Fund by the number of units in issue at the year-end.

##### **4.15 Provisions**

Provisions are recognized when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provision is not recognized for future operating loss.

All financial liabilities as at 31 December 2021 (31 December 2020) were classified as financial liabilities measured at amortized cost.

#### 13 FINANCIAL RISK MANAGEMENT

##### 13.1 Financial risk factors

The objective of the Fund is to safeguard its ability to continue as a going concern so that it can continue to provide optimum returns to its Unitholders and to ensure reasonable safety to the Unitholders.

The Fund's activities expose it to a variety of financial risks: market risk, credit risk, liquidity risk and operational risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risks is primarily set up to be performed based on the limits established by the Fund Board. The Fund has its Terms and Conditions document that set out its overall business strategies, its tolerance of risks and its general risk management philosophy and is obliged to take actions to rebalance the portfolio in line with the investment guidelines.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 13 FINANCIAL RISK MANAGEMENT (CONTINUED)

##### 13.1 Financial risk factors (continued)

###### (a) Market risk

###### (i) Foreign exchange risk

Foreign exchange risk is the risk that the value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates and arises from financial instruments denominated in foreign currency.

The Fund does not have any foreign exchange risk since all of its transactions are carried out in SAR.

###### (ii) Commission rate risk

Commission rate risk is the risk that the value of the future cash flows of a financial instrument or fair values of fixed coupon financial instruments will fluctuate due to changes in market commission rates.

The Fund does not have significant cash flow commission rate risk as it does not have any significant amount of variable rate financial instruments.

The table below summarizes the Fund's exposure to commission rate risks. Included in the table are the Fund's financial instruments at carrying amounts, categorized by the earlier of contractual re-pricing or maturity dates.

31 December 2021	Within 3 months	3-12 months	1-5 years	Over 5 years	Non- commission bearing	Total

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 13 FINANCIAL RISK MANAGEMENT (CONTINUED)

##### 13.1 Financial risk factors (continued)

###### (iii) Price risk

Price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements.

The price risk arises primarily from uncertainty about the future prices of financial instruments that the Fund holds. The Fund closely monitors the price movement of its investments in financial instruments. As of the statement of financial position date, the Fund has investments in mutual funds.

The effect on the net assets (equity) value (as a result of the change in the fair value of investments as at 31 December 2021 and 31 December 2020) due to a reasonably possible change in equity indices based on the industry concentration, with all other variables held constants is as follows:

	31 December 2021		31 December 2020	
	Potential reasonable change %	Effect on NAV	Potential reasonable change %	Effect on NAV
Alinma SAR Liquidity Fund	+/- 1%	6,269,083	+/- 1%	6,557,225
Alpha SAR Murabaha Fund	+/- 1%	5,239,868	+/- 1%	7,193,393
Rajhi SAR Commodity Fund	+/- 1%	961,661	+/- 1%	2,430,821
HSBC SAR Murabaha Fund	+/- 1%	368,171	+/- 1%	1,829,287
Riyad SAR Diversified Trade Fund	+/- 1%	-	+/- 1%	4,879,125
Falcom SAR Murabaha Fund	+/- 1%	-	+/- 1%	2,771,721
Al-Mubarak SAR Trade Fund	+/- 1%	-	+/- 1%	1,841,664
A-Ahli SAR Trade Fund	+/- 1%	-	+/- 1%	1,771,507

###### (b) Credit risk

The Fund is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Its Fund's policy to enter into financial instrument contracts with reputable counterparties. The Fund seeks to limit its credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties. The Fund is exposed to credit risk for its cash and cash equivalents, Investments measured at amortized cost and other receivables. Cash is placed with reputable financial institutions; hence the credit risk is minimal. For other assets, credit risk is also low.

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 13 FINANCIAL RISK MANAGEMENT (CONTINUED)

##### 13.1 Financial risk factors (continued)

###### (b) Credit risk

###### *Expected credit loss measurement*

The Fund does not have a formal internal grading mechanism. Credit risks are generally managed on the basis of external credit ratings of counterparties.

Under the general approach of IFRS 9 ECL, the financial assets are classified into three stages. Each stage indicates the credit quality of the particular financial asset.

Stage 1: includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month expected credit losses ('ECL') are recognized and profit is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance).

Stage 2: includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but that do not have objective evidence of impairment. For these assets, lifetime ECL are recognized, but profit is still calculated on the gross carrying amount of the asset.

Stage 3: includes financial instruments that have objective evidence of impairment at the reporting date. This stage has obligors that already are impaired (defaulted).

One of the key components of IFRS 9 ECL is to determine whether there have been significant increases in credit risk (SICR) of an entity's credit exposures since initial recognition. The assessment of significant deterioration is key in establishing the point of switching between the requirement to measure an allowance based on 12-month ECL and one that is based on lifetime ECL.

###### *Definition of 'Default'*

The Fund considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Fund in full, without recourse by the Fund to actions such as realizing security (if any is held); or
- the borrower is past due more than 90 days on any material credit obligation to the Fund. Overdrafts are considered as being past due once the counterparty has breached an advised limit or been advised of a limit smaller than the current amount outstanding.

In assessing whether a borrower is in default, the Fund considers indicators that are:

- qualitative- e.g., breaches of covenant;
- quantitative- e.g., overdue status and non-payment on another obligation of the same issuer to the Fund; and
- based on data developed internally and obtained from external sources.

Inputs into the assessment of whether a financial instrument is in default and their significance may vary over time to reflect changes in circumstances.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 13 FINANCIAL RISK MANAGEMENT (CONTINUED)

##### 13.1 Financial risk factors (continued)

###### (b) Credit risk (continued)

###### *Probability of Default (PD)*

Through the yearly review of investments in debt instruments, the Fund shall draw a yearly transition matrix to compute account-based PD over the one-year horizon for the past 5 years. These PDs will be grouped as per credit ratings. This rating migration shall capture the movement of obligors into default at yearly intervals. An average default rate of the 5 yearly transition matrices provides the through the cycle PDs. IFRS 9 requires the use of a PD that is a 'point-in-time' (PiT PD) estimate reflecting current forecasts of future economic conditions. To derive PiT PDs, the Fund will annually source macro-economic forecast data for selected variables from appropriate sources.

###### *Loss Given Default (LGD)*

Loss given default is defined as the forecasted economic loss in case of default. LGD computation will be based on the Fund's losses on defaulted accounts after the consideration of recovery percentages. IFRS 9 also requires that LGD be estimated in collaboration with the forward-looking valuation of collaterals based on macro-economic factors. LGD computation is independent of the assessment of credit quality and thus applied uniformly across all stages.

For LGD estimation on its non-collateralized portfolio, the Fund shall compute LGD based on actual recoveries on its defaulted portfolio over a period of at least 5 years prior to the assessment date.

###### *Exposure at Default (EAD)*

Exposure at default is an estimation of the extent that the Fund may be exposed to an obligor in the event of default. The estimation of EAD should consider any expected changes in the exposure after the assessment date. This is of importance in the case of Stage 2 assets where the point of default may be several years in the future.

###### *Discount rate*

The Fund will compute effective profit rate at a contractual level. If the computation of the effective profit rate (at reporting date) is not feasible, the Fund will use the contractual profit (at reporting date) for discounting purposes.

The Fund Manager has performed an ECL assessment for the financial assets carried at amortized cost. An allowance for impairment over these financial assets was not recognized in these financial statements as the amount was not material.

#### 13 FINANCIAL RISK MANAGEMENT (CONTINUED)

##### 13.1 Financial risk factors (continued)

###### (c) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units on every business day and it is, therefore, exposed to the liquidity risk of meeting Unitholder redemptions on these days. The Fund's financial liabilities primarily consist of payables which are expected to be settled within one month from the statement of financial position date.

The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by taking short term loans from the Fund Manager.

###### (d) Operational risk

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to Unitholders.

# ALJAZIRA SAUDI RIYAL MURABAHA FUND

## An Open-Ended Mutual Fund

(Managed by Aljazira Capital Company)

### NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

(Amounts in Saudi Arabian Riyals)

#### 14 FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value for financial instruments traded in active markets is based on quoted market prices at the close of trading on the financial reporting date. Instruments for which no sales were reported on the valuation day are valued at the most recent bid price.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The carrying value less impairment provision, if any, of financial instrument carried at amortized cost are assumed to approximate their fair values.

The fair value hierarchy has the following levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Fund classifies all of its financial assets, except for those carried at amortized cost, at fair value as level 2.

2021	Fair value Level			Total
	1	2	3	
<b>FINANCIAL ASSET</b>				
Investments carried at fair value through profit or loss (FVTPL)	-	1,283,878,247	-	1,283,878,247
<b>2020</b>				
2020	Fair value Level			Total
	1	2	3	
<b>FINANCIAL ASSET</b>				
Investments carried at fair value through profit or loss (FVTPL)	-	2,927,474,294	-	2,927,474,294

Valuation technique for calculating the fair value of investments under Level 2 comprises of determining the net asset value per unit of the funds which is based on observable market data.

For assets and liabilities that are measured at fair value on a recurring basis, the Fund identifies transfers between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) and deems transfers to have occurred at the end of the reporting period during which the change has occurred. During the year, there was no transfer in fair value hierarchy for the financial assets held at fair value through profit or loss.

Other financial instrument such as, cash at bank, are short-term financial asset whose carrying amount approximate its fair value, because of its short-term nature and the high credit quality of counterparty. For all other financial assets and liabilities, the carrying value is an approximation of fair value.
