INDEPENDENT AUDITOR'S REPORT

**TO: THE UNITHOLDERS OF
SAUDI RIYAL MONEY MARKET FUND
(Managed by Saudi Fransi Capital)**

Opinion:

We have audited the financial statements of **Saudi Riyal Money Market Fund ("the Fund")** managed by Saudi Fransi Capital (the "Fund Manager"), which comprises the statement of financial position as at December 31, 2021, the statements of comprehensive income, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA") (collectively referred to as "IFRSs as endorsed in KSA").

Basis of Opinion:

We conducted our audit in accordance with International Standards on Auditing ("ISAs") as endorsed in Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Fund in accordance with the professional code of conduct and ethical requirements that are relevant to our audit of the financial statements in Kingdom of Saudi Arabia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements:

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards ("IFRS") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants – "SOCPA" and the applicable provisions of the Investment Funds Regulations issued by the Board of the Capital Market Authority, the Fund's terms and conditions and Information Memorandum, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)
SAUDI RIYAL MONEY MARKET FUND
(Managed by Saudi Fransi Capital)

Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as endorsed in Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

SAUDI RIYAL MONEY MARKET FUND (MANAGED BY SAUDI FRANSI CAPITAL)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

1. GENERAL

Money Market Fund (SAR) (the “Fund”) is an open ended investment fund based on an agreement between Saudi Fransi Capital (the “Fund Manager”) and investors (the “Unitholders”). The Fund commenced its operations on 11 July 1987.

The objective of the Fund is capital preservation and providing liquidity.

During the year, the Fund updated its terms and conditions on 20 Rajab 1442H (corresponding to 04 March 2021) and 26 Dhu al Hijah 1442H (corresponding to 5 August 2021), which have been approved by the Capital Market Authority “CMA”.

The Fund Manager and Administrator of the Fund is Saudi Fransi Capital. The Custodian of the Fund is HSBC Saudi Arabia.

2. REGULATORY AUTHORITY

The Fund is governed by the Investment Fund Regulations (the “Regulations”) issued by the CMA on 3 Dhul Hijja 1427H (corresponding to 24 December 2006) and amended by resolution of the Board of the Capital Market Authority on 12 Rajab 1442H (corresponding to 24 February 2021) effective from 19 Ramadan 1442H (corresponding 1 May 2021) by the New Investment Fund Regulations (“Amended Regulations”) published by the Capital Market Authority on 17 Rajab 1442H (corresponding to 1 March 2021) in addition to the new amendment number 2-22-2021 issued on 12 Rajab 1442H (Corresponding to 24 February 2021) detailing requirements for all funds within the Kingdom of Saudi Arabia.

3. BASIS OF PREPARATION

3.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Certified Public Accountants (“SOCPA”) (collectively referred to “IFRS as endorsed in KSA”).

Assets and liabilities in the statement of financial position are presented in the order of liquidity.

An analysis in respect of recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 15.

3.2 BASIS OF MEASUREMENT

The financial statements are prepared under the historical cost convention, using the accrual basis of accounting except for investment held at fair value through profit or loss.

3.3 FUNCTIONAL CURRENCY

These financial statements are presented in Saudi Riyal (“SR”), which is the Fund’s functional currency. All financial information presented has been rounded to the nearest SR.

3.4 SUBSCRIPTION/REDEMPTION

Subscription / redemption requests are accepted on every business / Working day. The value of the Fund’s portfolio is determined daily. The net asset value of the Fund for the purpose of purchase or sale of units is determined by dividing the net assets (fair value of the Fund’s assets minus fund’s liabilities) of the fund by the total number of outstanding fund units.

SAUDI RIYAL MONEY MARKET FUND (MANAGED BY SAUDI FRANSI CAPITAL)

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting used in the preparation of these financial statements are consistent with those used and disclosed in the financial statements for the year ended 31 December 2020.

Financial instruments

Initial recognition

The Fund records financial asset or a financial liability in its statement of financial position when, and only when, it becomes party to the contractual provisions of the instrument.

At initial recognition, financial assets or financial liabilities are measured at their fair value. In the case of financial assets or financial liabilities not at fair value through profit or loss, its fair value less transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability is the initial recognition amount.

Classification

The Fund classifies its financial assets under the following categories:

- Fair value through profit or loss (FVTPL);
- Fair value through other comprehensive income (FVTOCI); and
- Amortised cost.

These classifications are on the basis of business model of the Fund for managing the financial assets, and contractual cash flow characteristics.

The Fund measures financial asset at amortised cost when it is within the business model to hold assets in order to collect contractual cash flows, and contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For assets measured at fair value, gains and losses will either be recorded in either profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Fund has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Fund classifies all financial liabilities as subsequently measured at amortised cost using the effective interest rate method except for financial liabilities at fair value through profit or loss.

Derecognition of financial instruments

The Fund derecognizes a financial asset when the contractual rights to the cash flows from the assets expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Fund neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Fund recognizes its retained interest in the asset and associated liability for amounts it may have to pay. If the Fund retains substantially all the risks and rewards of ownership of the transferred financial asset, the Fund continues to recognize the financial asset and also recognizes a collateralized financing for the proceeds received.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statements of comprehensive income.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

SAUDI RIYAL MONEY MARKET FUND (MANAGED BY SAUDI FRANSI CAPITAL)

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets

The Fund assesses on a forward looking basis the expected credit losses (“ECL”) associated with its financial assets, carried at amortised cost, the ECL is based on a 12-month ECL and life time ECL. The 12-month ECL is the portion of lifetime ECLs that results from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilise the asset in its highest and best use.

The Fund uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting year.

At each reporting date, the Fund analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Fund's accounting policies.

For the purpose of fair value disclosures, the Fund has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above. Fair value related disclosures for financial instruments that are measured at fair value or where fair values are disclosed are discussed in Note 14.

Trade date accounting

The Fund follows trade date accounting for all placements of money market instruments, purchase of Sukuks and sales of financial assets classified at FVTPL (i.e. the date that the Fund commits to place, purchase or sell the assets).

Cash and cash equivalents

Cash and cash equivalent include accounts maintained with the bank and custodian.

SAUDI RIYAL MONEY MARKET FUND
(MANAGED BY SAUDI FRANSI CAPITAL)

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Provisions

Provisions are recognised when the Fund has an obligation (legal or constructive) arising from a past event, and the costs to settle the obligation are both probable and can be measured reliably. If the effect of time value of money is material, provisions are discounted using a current pretax rate that reflects, where appropriate, the risk specific to the liability. When discounting is used, the increase in the provision due to passage of time is recognised as finance costs.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured.

Accrued expenses and other payables

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the suppliers or not. These are initially recognized at fair value and subsequently at amortized cost.

The undiscounted value of all financial liabilities of the Fund at the reporting date approximate to their carrying values due to the fact that all are to be settled within one year from the reporting date, accordingly, the said liabilities are not recognised at amortized cost.

Management fees

Fund management fee is payable at an agreed rate with the Fund Manager. The Fund Manager will charge a management fee upto 0.5% per annum plus applicable VAT of the net asset value of fund accrued daily and paid on a monthly basis.

Expenses

Expenses are measured and recognized as expenses on an accrual basis in the accounting year in which they are incurred.

Zakat and income tax

Zakat at the Fund level is the obligation of the Unitholders and is not provided for in these financial statements.

Net gain or loss on financial assets and liabilities at FVTPL

Net gains or losses on financial assets and liabilities at FVTPL are changes in the fair value of financial assets and liabilities held for trading or designated upon initial recognition as at FVTPL and exclude commission and dividend income and expenses.

Unrealised gains and losses comprise changes in the fair value of financial instruments for the year and from reversal of the prior year's unrealised gains and losses for financial instruments, which were realised in the reporting year. Realised gains and losses on disposals of financial instruments classified as at FVTPL are calculated using the weighted average cost method. They represent the difference between an instrument's initial carrying amount and disposal amount.

Net asset value per unit

Net assets value per unit as disclosed in the statement of financial position is calculated by dividing the net assets of the Fund by the number of units in issue at year end.

SAUDI RIYAL MONEY MARKET FUND (MANAGED BY SAUDI FRANSI CAPITAL)

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign currency translation

Transactions in foreign currencies are translated into SAR at the exchange rate at the dates of the transactions.

Foreign exchange gains and losses arising from translation are included in profit or loss. Monetary assets and liabilities denominated in foreign currencies are retranslated into SAR at the exchange rate at the reporting date.

Foreign currency differences arising on retranslation are recognised in statement of comprehensive income as net foreign exchange losses, except for those arising on financial instruments at FVTPL, which are recognised as a component of net gain from financial instruments at FVTPL.

Special commission/ interest income

Special commission / interest income is recognized on straight-line basis.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

Going concern

The Fund Manager made an assessment of the Fund's ability to continue as a going concern and is satisfied that the Fund has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Fund's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

6. STANDARDS ISSUED BUT NOT YET EFFECTIVE

New IFRS, amendments and interpretations issued not yet effective and not early adopted

There are several standards and interpretations that are issued, but not yet effective, up to the date of the Fund's financial statements. In the opinion of the Board, these standards will have no significant impact on the financial statements of the Fund. The Fund intends to adopt these standards, if applicable.

7. CASH AND CASH EQUIVALENTS

	<i>31 December 2021 SR</i>	<i>31 December 2020 SR</i>
Bank balances (See below)	1,487,325	1,699,586
Cash with custodian	12,651,837	77,633,344
	14,139,162	79,332,930

The bank balances represent the cash in a current account maintained with Banque Saudi Fransi (Note 12).

The management has conducted a review as required under IFRS 9 and based on such an assessment, the management believes that there is no need for any significant impairment loss against the carrying value of bank balances.

11. NET GAIN ON INVESTMENTS MEASURED AT FAIR VALUE THROUGH PROFIT OR LOSS

	<i>For the year ended 31 December 2021 SR</i>	<i>For the year ended 31 December 2020 SR</i>
Realised gain on investments, net	1,103,687	15,240
Unrealised (loss) / gain on investments, net	(238,464)	697,751
	865,223	712,991

12. TRANSACTIONS WITH RELATED PARTIES

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Related parties include Saudi Fransi Capital (“the Fund Manager”), Banque Saudi Fransi (the Bank and the shareholder of the Fund Manager), the Funds’ Board of Directors (BOD), affiliates of the Fund Manager, the Funds managed by the Fund Manager and the Unit holders of the Fund.

In the ordinary course of its activities, the Fund transacts business with related parties.

The Fund pays the Fund Manager a management fee calculated a rate upto 0.5% per annum on the total net assets value on daily basis. The fee is intended to compensate the Fund Manager for administration and management of the Fund.

Related party transactions and balances are as follows:

<i>Related party</i>	<i>Nature of transactions</i>	<i>Amount of Transactions</i>		<i>Balances Receivables / (Payables)</i>	
		<i>For the year ended 31 December</i>	<i>For the year ended 31 December</i>	<i>31 December</i>	<i>31 December</i>
		<i>2021 SR</i>	<i>2020 SR</i>	<i>2021 SR</i>	<i>2020 SR</i>
Saudi Fransi Capital	Management fees	(2,630,241)	(3,341,334)	(224,127)	(220,446)
Board of Directors	Annual remuneration	(12,158)	(9,977)	-	-
Banque Saudi Fransi	Interest income	88,611	-	-	-
	Other income	-	46,544	-	-

The units in issue as at 31 December 2021, include 207,897 units held by the employees of Banque Saudi Fransi and Saudi Fransi Capital (31 December 2020: 19,421 units).

The units in issue as at 31 December 2021 include 67,065 units held by Allianz Saudi Fransi (31 December 2020: 71,561 units).

At the end of the year, cash balance with the Banque Saudi Fransi is SR 1,487,325 (31 December 2020: SR 1,699,586).

The units in issue as at 31 December 2021 include Nil units (31 December 2020: 1,815,073 units) held by a Discretionary Portfolio that is managed by Saudi Fransi Capital.

Other	24,145	6,787
	<u>240,102</u>	<u>176,538</u>

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

Determination of fair value and fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability the principal or the most advantageous market must be accessible to the Fund.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted market price: financial instruments with quoted unadjusted prices for identical instruments in active markets.

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data.

Level 3: valuation techniques for which any significant input is not based on observable market data.

The Fund's financial assets consist of bank balance, investments measured at amortised cost and other receivables and investments measured at FVTPL. The Fund's financial liabilities consist of management fee payable, accruals and other liabilities, and payable against units redeemed.

The following table shows the carrying amount and fair values of financial assets, including their levels in the fair value hierarchy for financial instruments measured at fair value.

	<i>Carrying value</i>	<i>Fair value</i>			<i>Total</i>
		<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	
	SR	SR	SR	SR	SR

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

14. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value as the carrying amount is a reasonable approximation of fair value. The fair values of financial instruments are not significantly different from the carrying values included in the financial statements due to the short duration of material financial instruments.

During the year ended 31 December 2021, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of level 3 fair value measurements.

15. MATURITY ANALYSIS OF ASSETS AND LIABILITIES

The table below shows an analysis of assets and liabilities according to when they are expected to be recovered or settled respectively:

	<i>Within 12 months SR</i>	<i>After 12 months SR</i>	<i>Total SR</i>
<i>31 December 2021</i>			
ASSETS			
Cash and cash equivalents	14,139,162	-	14,139,162
Investments measured at fair value through profit or loss (FVTPL)	76,043,557	-	76,043,557
Investments measured at amortised cost	554,261,960	12,281,750	566,543,710
Prepayments and other assets	3,110	-	3,110

SAUDI RIYAL MONEY MARKET FUND (MANAGED BY SAUDI FRANSI CAPITAL)

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2021

16. FINANCIAL AND RISK MANAGEMENT OBJECTIVES AND POLICIES

Introduction

The Fund's objective in managing risk is the protection of unitholder's value. Risk is inherent in the Fund's activities, and is managed through a process of ongoing risk identification, measurement and monitoring. The process of risk management is critical to the Fund's continuing profitability. The Fund is exposed to market risk, credit risk and liquidity risk arising from the financial instruments it holds.

Risk management

The Fund's Investment Manager is primarily responsible for identifying and controlling risks.

Risk measurement and reporting system

Monitoring and controlling risks is primarily set up to be performed based on limits approved by the Credit Committee of the Fund Manager based on the recommendation of Risk Management Division of SFC which conducts an independent assessment. These limits reflect the business strategy, credit worthiness of the counterparty and the market environment of the Fund. In addition, the Compliance Department of the Fund Manager monitors the exposures against the approved limits.

Risk mitigation

The Fund's investment guidelines as specified in Terms and Conditions, Information memorandum and fact sheet set out its overall business strategies, its tolerance for risk and its general risk management philosophy.

Concentration risk

Concentration indicates the relative sensitivity of the Fund's performance to developments affecting a single or group of counterparties or geographical location. Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of liquidity risk may arise from the repayment terms of financial liabilities, sources of borrowing facilities or reliance on a particular market in which to realise liquid assets. Concentrations of foreign exchange risk may arise if the Fund has a significant net open position in a single foreign currency, or aggregate net open positions in several currencies that tend to move together.

In order to avoid excessive concentrations of risk, the Fund's policies and procedures include guidelines to focus on maintaining a portfolio based on the counter party limits approved by the Credit Committee on the recommendation of Risk Management Division.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Fund does not have a formal internal grading mechanism. Credit risk is managed and controlled by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties. The Fund Manager seeks to limit its credit risk by monitoring credit exposure, credit ratings and by dealing with reputed counterparties.

16. FINANCIAL AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit risk (Continued)

The following table shows the Fund's maximum exposure to credit risk for components of the statement of financial position.

	<i>31 December 2021 SR</i>	<i>31 December 2020 SR</i>
Cash and cash equivalents	14,139,162	79,332,930
Investment measured at amortised cost	566,543,710	462,023,820
Prepayments and other assets	3,110	9,961
	<u>580,685,982</u>	<u>541,366,711</u>

Market risk

Market risk is the risk that changes in the market prices, such as foreign exchange rates, equity prices and interest rates, will affect the Fund's income or cash flows. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return.

Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in the market interest rates. The Fund is subject to interest rate risk on its interest bearing assets including investments held at amortised costs and investments held at FVTPL. The Fund does not account for any fixed rate interest bearing financial assets at fair value and therefore, a change in interest rates at the reporting date would not have any effect on the financial statements.

Currency risk

Currency risk is the risk that the value of a financial instrument may fluctuate due to change in foreign exchange rates. The financial instruments of the Fund i.e. cash, investments at FVTPL, investments held at amortized cost and payables are largely denominated in Saudi Arabian Riyals. The only other currency the Fund has invested in is USD, which is pegged against SAR. Accordingly, the Fund is not exposed to any significant currency risk.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in releasing funds to meet commitments associated with financial liabilities that are settled by delivering cash or another financial assets.

The Fund's terms and conditions provide for the terms of subscriptions and redemptions of units and it is, therefore, exposed to the liquidity risk of meeting unitholder redemptions. The Fund's securities (money market instruments and investment in mutual funds) are considered to be realizable as the said securities can be redeemed as and when required (by early termination and/or pre-maturity). The Fund Manager monitors the liquidity requirements on a regular basis and seeks to ensure that sufficient funds are available to meet any commitments as they arise.

In addition to the above, the Fund can potentially utilize an overdraft facility offered by the Fund Manager to meet liquidity requirements.

The undiscounted value of all financial liabilities of the Fund at the reporting date approximate to their carrying values and all are to be settled within one year from the reporting date.

17. RECLASSIFICATION

Certain prior year figures have been reclassified to conform to the current year presentation, if applicable.
