# Report on review of Interim Condensed Financial Statements

To the Unit holders and the Fund Manager of International Trade Finance Fund (Al Sunbullah – USD):

#### Introduction

We have reviewed the accompanying interim statement of financial position of International Trade Finance Fund (Al Sunbullah – USD) (the "Fund") as of June 30, 2020, and the related statements of comprehensive income, cash flows and changes in equity attributable to unitholders for the six-month period then ended and the notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 – "Interim Financial Reporting" (IAS 34), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information performed by the Independent Auditor of the Entity' as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

#### 11 IMPACT OF COVID-19

The COVID-19 pandemic has developed rapidly in 2020, with a significant number of cases. Measures taken by Government to contain the virus have affected economic activity. We have taken a number of measures to monitor and mitigate the effects of COVID-19, such as safety and health measures for our people (such as social distancing and working from home) and securing the supply of materials that are essential to our

The prevailing economic conditions post lock down, require the Fund to revise certain inputs and assumptions used for the determination of ECL. These primarily revolve around either adjusting macroeconomic factors used by the Fund in estimation of ECL or revisions to the scenario probabilities currently being used by the Fund in ECL estimation. The Fund has made certain adjustments to the macroeconomic factors and scenario weightings during the period and has adjusted the ECL accordingly.

The Fund's ECL model continues to be sensitive to macroeconomic variables and scenario weightings. As with any forecasts, the projections and likelihoods of occurrence are underpinned by significant judgement and uncertainty and therefore, the actual outcomes may be different to those projected. The impact of such uncertain economic environment is judgmental and the Fund will continue to reassess its position and the related impact on a regular basis.

At this stage, the impact on our business and results has not been significant and based on our experience to date we expect this to remain the case. We will continue to follow the Government policies and advice and, in parallel, we will do our utmost to continue our operations in the best and safest way possible without jeopardising the health of our people.
