INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS

**TO THE UNITHOLDERS
SAUDI TRADING EQUITY FUND
Riyadh, Kingdom of Saudi Arabia**

INTRODUCTION

We have reviewed the accompanying interim statement of financial position of Saudi trading equity Fund (the "Fund"), managed by Osool & Bakheet Investment Company (the "Fund Manager") as at 30 June 2020 and the related interim statement of comprehensive income, interim statement of changes in net assets (Equity) attributable to unitholders and interim statement of cash flow for the six-month periods then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagement 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

OSOOL & BAKHEET SAUDI TRADING EQUITY FUND
Open-Ended Fund
(Managed by Osool & Bakheet Investment Company)
Notes to the interim condensed financial statements (unaudited)
For the six-month period ended 30 June 2020

1 FUND AND ITS ACTIVITIES

Osool & Bakheet Saudi Trading Equity Fund (the "Fund") is an investment fund established through an agreement between Osool & Bakheet Investment Company (the "Fund Manager") and the Fund Investors (the "Unitholders"), The Fund commenced its operations on 7 May 2007.

The Fund has updated its terms and condition which have been approved by the CMA on 29 Shaban 1441H (corresponding to 22 April 2020).

The Fund's primary objective is to maximize capital growth by achieving a positive return while minimizing potential risks through investing in Saudi Joint stock companies that are compliant with Shariah criteria. Also, the fund manager may invest by no more than 30% of the fund's net asset value in REITs (including the funds' units that managed by the fund's manager) and by no more than 30% of its net asset value in listed companies in the Parallel Market (Nomu). In addition to invest the Fund's available liquidity in low risk and highly liquid Saudi Riyal assets (such as Murabaha and Murabaha funds in Saudi Riyal) which are sharia compliant.

In dealing with the Unitholders, the Fund Manager considers the Fund as an independent accounting unit. Accordingly, the Fund Manager prepares separate financial statements for the Fund.

The Fund is governed by the Investment Fund Regulations ("the Regulations") published by the CMA on 3/12/1427 (corresponding to 24/12/2006) subsequently amended by Resolution of the Board of the Capital Market Authority Number 1-61-2016 Dated 16/8/1437 (corresponding to 23/5/2016)

2 BASES OF PREPARATION AND CHANGES TO ACCOUNTING POLICIES

2.1 Statement of compliance

These interim condensed financial statements have been prepared in accordance with 'International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Certified Public Accountants ("SOCPA").

These interim condensed financial statements do not include all of the information required in annual financial statements and should be read in conjunction with the annual financial statements of the Fund for the year ended 31 December 2019. The results for the six-month period ended 30 June 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020.

The interim condensed financial statements have been prepared on a historical cost basis, using the accrual basis of accounting except for the investments measured at fair value through profit or loss that are measured at fair value.

2.2 Functional and presentation currency

Items included in the interim condensed financial statements are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). These interim financial statements are presented in Saudi Arabian Riyal ("SAR") which is the Fund's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into SAR using the exchange rates prevailing at the date of transactions. Foreign currency assets and liabilities are translated into SAR using the exchange rates.

Prevailing at the interim statement of financial position date. Foreign exchange gains and losses, arising from translation are included in the statement of interim comprehensive income.

Notes to the interim condensed financial statements (unaudited)
For the six-month period ended 30 June 2020

2 BASES OF PREPARATION AND CHANGES TO ACCOUNTING POLICIES (Continued)

2.3 New standards, interpretations and amendments

The accounting policies used in the preparation of these interim condensed financial statements are consistent with those used and disclosed in the annual financial statements of the Fund for the year ended 31 December 2019. There are new standards, amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed financial statements of the Fund.

There are several other amendments and interpretations that are issued, but not yet effective, up to the date of issuance of the Fund's interim condensed financial statements. In the opinion of the Fund Board, these will have no significant impact on the interim condensed financial statements of the Fund. The Fund intends to adopt those amendments and interpretations, if applicable.

3 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

In preparing these interim condensed financial statements, the significant judgments made by the management in applying the Fund's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the financial statements for the year ended 31 December 2019, except for the estimate described below:

Measurement of the expected credit loss allowance

In the preparation of the interim condensed financial statements, management has made certain additional assumptions in the measurement of Expected Credit Loss (ECL). However, in view of the current uncertainty due to COVID-19, any future change in the assumptions and key estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future periods. As the situation is rapidly evolving with future uncertainties, management will continue to assess the impact based on prospective developments.

4 MANAGEMENT FEE, ADMINISTRATION AND OTHER CHARGES

On each Valuation Day, the Fund Manager charges the Fund management fee at the rate of 2% percent per annum of the Fund's net assets value. The Fund Manager also recovers from the Fund any other expenses incurred on behalf of the Fund such as audit and legal fees, board compensation and other similar charges.

11 FAIR VALUE

The fair value for financial instruments traded in active markets is based on quoted market prices at the close of trading on the interim financial reporting date. Instruments for which no sales were reported on the valuation day are valued at the most recent bid price.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The carrying value less impairment provision of financial instruments carried at amortized cost are assumed to approximate their fair values.

The fair value hierarchy has the following levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 2, include active listed equity and debt instruments. The Fund does not adjust the quoted price for these instruments.

Fund classifies all of its financial assets, at fair value level 1.

For assets and liabilities that are measured at fair value on a recurring basis, the Fund identifies transfers between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole), and deems transfers to have occurred at the end of the reporting period during which the change has occurred. During the period, there was no transfer in fair value hierarchy for the financial assets held at fair value through profit or loss.

Other financial instruments such as, cash and cash equivalents and. This is short-term financial assets whose carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties. For all other financial assets and liabilities, the carrying value is an approximation of fair value.

12 FINANCIAL RISK MANAGEMENT

12.1 Financial risk factors

The Fund's activities expose it to a variety of financial risks: market risk, credit risk, liquidity risk and operational risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risks is primarily set up to be performed based on the limits established by the Fund Board. The Fund has its Terms and Conditions document that set out its overall business strategies, its tolerance of risks and its general risk management philosophy and is obliged to take actions to rebalance the portfolio in line with the investment guidelines.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

12 FINANCIAL RISK MANAGEMENT (Continued)
12.1 Financial risk factors (Continued)

(a) Market risk

(i) Price risk

Price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements. The price risk arises primarily from uncertainty about the future prices of financial instruments that the Fund holds. The Fund Manager diversifies the investment portfolio and closely monitors the price movement of its investments in financial instruments. As of the interim statement of financial position date, Fund has equity investments.

The effect on the net assets value (as a result of the change in the fair value of investments as at 30 June) due to a reasonably possible change in equity indices based on the industry concentration, with all other variables held constants is as follows:

	30 June 2020 (unaudited)		31 December 2019 (audited)	
	Potential reasonable change %	Effect On NAV	Potential reasonable change %	Effect on NAV
Health Care Equipment & Svc	%1	24,268	%1	11,804

12 FINANCIAL RISK MANAGEMENT (Continued)

12.1 Financial risk factors (Continued)

(b) Credit risk

The Fund is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Fund is exposed to credit risk for its Cash and cash equivalents and Dividend receivable as follows:

	30 June 2020 (unaudited)	31 December 2019 (audited)
Cash and cash equivalents	3,147,904	594,868
Dividend receivable	4,200	--

The carrying amount of financial assets represents the maximum credit exposure.

Credit risk on Cash and cash equivalents and Dividend receivable is limited as:

- All financial assets of fund's held with counterparties with sound credit ratings.
- The fund applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all financial assets.

Its Fund's policy to enter into financial instrument contracts with reputable counterparties. The Fund seeks to limit its credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties.

(c) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units on Monday and Thursday, therefore, exposed to the liquidity risk of meeting unitholder redemptions on these days. The Fund's financial liabilities primarily consist of payables which are expected to be settled within one month from the interim statement of financial position date.

The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by taking short term loans from the Fund Manager.

The table below summarizes the maturity profile of significant assets and liabilities of the Fund based on expected maturities:
