3) Material Changes

- The U.S Federal Open Market Committee (FOMC) maintained its' target FFR stable at a range of 0% to 0.25% in 2021, and continued to use QE to support credit and economic recovery throughout the year until November when it officially announced tapering its monthly asset purchase program, then doubling the pace of its monthly asset purchase reduction in December amid improving labor markets and inflationary pressures to end expectedly by March of 2022.
- The Tapering along with higher market expectation of rate hikes in the upcoming year has resulted in an upward shift in the U.S treasury yield curve with shorter-term yields increasing faster compared to longer-term bond yields attributed to concerns related to policy tightening and its impact on the economy; 5-Year treasury notes yield increased by 90 Bps (from 0.36% to 1.26%), 10-Year treasury notes yield increased by 60 Bps (from 0.91% to 1.51%), while the 30-Year treasury bonds yield increased by 26 Bps (from 1.64% to 1.90%).
- The Saudi Central bank (SAMA) maintained its' policy rates in 2021, the Reverse Repo rate at 0.50%, and Repo rate at 1.00%. Support packages and fiscal measures were also

3) تغيرات جوهرية حدثت خلال الفترة

- حافظت اللجنة الفيدرالية الأمريكية للسوق المفتوحة (FOMC) على معدل الفائدة المستهدف ضمن نطاق ما بين 0% و0.25% خلال 2021م، كما استمرت باستخدام برنامج التيسير الكمي لدعم الائتمان والاقتصاد على مدار العام حتى شهر نوفمبر حيث تم تقليص برنامج شراء السندات تدريجياً، ومن ثم مضاعفة وتيرة التقليل في ديسمبر بسبب تحسن معدلات البطالة وارتفاع التضخم. لينتهي البرنامج حسب توقعات اللجنة بحلول مارس 2022م.
- أدى تخفيض وتيرة الشراء الشهرية لبرنامج التيسير الكمي بالإضافة إلى توقعات السوق بارتفاع أسعار الفائدة خلال العام المقبل إلى ارتفاع منحى عوائد سندات الخزينة الأمريكية، وارتفاع عوائد السندات قصيرة الأجل بشكل أسرع مقارنة بعوائد السندات طويلة الأجل و يعود ذلك إلى مخاوف متعلقة بتشديد السياسة النقدية وتأثيرها المتوقع على نمو الاقتصاد؛ كما ارتفع عائد سندات الخزينة ل 5 سنوات بمقدار 90 نقطة أساس (من 0.36% إلى 1.26%)، وارتفع عائد سندات الخزينة ل 10 سنوات بمقدار 60 نقطة أساس (من 0.91% إلى 1.51%) ، في حين ارتفع عائد سندات الخزينة ل 30 عاماً بمقدار 26 نقطة أساس (من 1.64% إلى 1.90%).
- حافظ البنك المركزي السعودي (ساما) على معدلات اتفاقيات إعادة الشراء المعاكس (الريو العكسي) ومعدل اتفاقيات إعادة الشراء (الريو) عند نفس المستوى خلال العام، حيث استقر

extended to continue supporting private sector credit and liquidity which reflected positively on the recovery of Saudi economy during 2021.

- The Saudi Sovereign Sukuk yield curve has also experienced an upwards shift in 2021; 5-year KSA SAR Sukuk yield increased by 72 Bps (from 1.49% to 2.22%). While Longer tenor 10-year KSA SAR Sukuk yield increased by 28 Bps (from 2.62% to 2.90%).
- The Saudi Riyal Interbank Average Offered Rate (SAIBOR) increased in 2021; 3-Month SAIBOR increasing by 9 Bps to 0.91%, 6-Month SAIBOR increasing by 11 Bps to 0.98%, and 12-Month SAIBOR increasing by 12 Bps to 1.06%.
- Total gross Saudi Sovereign debt issuances during 2021 amounted to SAR 125 bln - in line with the 2021 borrowing plan- increasing the outstanding debt portfolio to reach approximately SAR 938 bln by year-end equivalent to 29% of the kingdom's GDP, and estimated to remain at those levels by end of 2022 given stabilizing economic conditions and budget balance.
- Brent crude oil price increased from an average of \$41.6 per barrel in 2020 to \$70.9 per barrel in 2021, attributed to a faster pick-up in demand compared to supply levels due to the recovery and reopening of major economies, rising vaccination levels, loosening restrictions and precautionary measures.

معدل اتفاقيات إعادة الشراء المعاكس عند 0.50%، ومعدل اتفاقيات إعادة الشراء عند 1.00%. كما قامت بتمديد برامج التيسير الكمي لمواصلة دعم الإقراض والائتمان والسيولة للقطاع الخاص مما انعكس إيجاباً على الاقتصاد السعودي خلال 2021م.

- كما شهد منحى عائد الصكوك السيادية السعودية أيضاً تحولاً تصاعدياً في عام 2021م؛ حيث ارتفع عائد الصكوك السعودية بالريال السعودي لأجل 5 سنوات بمقدار 72 نقطة أساس (من 1.49% إلى 2.22%)، بينما ارتفع عائد صكوك السعودية بالريال السعودي ذات الأجل الأعلى 10 سنوات بمقدار 28 نقطة أساس (من 2.62% إلى 2.90%).
- شهدت معدلات الإقراض بين البنوك السعودية (سايبور) ارتفاعات ملحوظة خلال عام 2021، حيث ارتفع سايبور 3 أشهر بمعدل 9 نقاط أساس إلى مستوى 0.91% وارتفع سايبور 6 أشهر بمعدل 11 نقطة أساس إلى مستوى 0.98% كما ارتفع سايبور 12 شهر بمعدل 12 نقطة أساس إلى مستوى 1.06%.
- بلغ إجمالي الدين الحكومي خلال عام 2021 ما يعادل 125 مليار ريال سعودي كما كان مخطط لها، ليصل إجمالي حجم الدين القائم ما يقارب 938 مليار ريال سعودي بنهاية العام أو ما يعادل 29% من الناتج المحلي الإجمالي للمملكة، والمتوقع أن يحافظ على نفس المستويات حتى نهاية 2022 نظراً لاستقرار الظروف الاقتصادية وتوازن الميزانية.
- كما ارتفع متوسط سعر خام برنت من 41.6 دولاراً للبرميل في عام 2020م إلى 70.9 دولاراً للبرميل في عام 2021م، ويعود ذلك إلى ارتفاع الطلب مقارنة بمستويات العرض بسبب تعافي الاقتصاد العالمي وارتفاع نسب الحصول على اللقاح ضد فيروس كورونا وتخفيف القيود والتدابير الاحترازية.

Independent Auditor's Report

To the Unitholders of SNB Capital Sadaqqat Fund (formerly known as AIAhli Sadaqqat Fund)

Opinion

We have audited the financial statements of **SNB Capital Sadaqqat Fund** ("the Fund") managed by SNB Capital Company (formerly known as NCB Capital Company) (the "Fund Manager"), which comprise the statement of financial position as at 31 December 2021, the statements of profit or loss and other comprehensive income, changes in equity attributable to unitholders and cash flows for the year then ended, and notes to the financial statements, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Chartered and Professional Accountants (SOCPA).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the professional code of conduct and ethics that are endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Fund Manager and Those Charged with Governance for the Financial Statements

The Fund Manager is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA, and to comply with the applicable provisions of the Investment Funds Regulations issued by the Capital Market Authority ("CMA"), the Fund's terms and conditions, and the Information Memorandum, and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Fund Board, are responsible for overseeing the Fund's financial reporting process.

Independent Auditor's Report

To the Unitholders of SNB Capital Sadaqqat Fund (formerly known as AlAhli Sadaqqat Fund)
(continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund Manager's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.
- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of **SNB Capital Sadaqqat Fund** ("the Fund").

SNB CAPITAL SADAQQAT FUND (FORMERLY KNOWN AS ALAHLI SADAQQAT FUND)

(Managed by SNB Capital Company - formerly known as NCB Capital Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

Expressed in Saudi Arabian Riyals '000 (unless otherwise stated)

1. THE FUND AND ITS ACTIVITIES

SNB Capital Sadaqqat Fund (formerly known as AlAhli Sadaqqat Fund) ("the Fund") is a Shariah compliant open-ended investment fund, managed by SNB Capital Company (formerly known as NCB Capital Company) ("the Fund Manager"), a subsidiary of The Saudi National Bank (formerly known as National Commercial Bank) ("the Bank"), for the benefit of the Fund's Unitholders.

NCB Capital Company has completed its merger proceedings with the Samba Capital & Investment Management Company effective 9 July 2021 and the name has been changed to SNB Capital Company.

The Fund offers investors the opportunity to participate in trade transactions, which conform to Shariah principles and to contribute income from their investments to officially recognized local charities meeting strict criteria set by the Fund, in support of the following local charitable causes:

- a) Supporting orphans;
- b) Supporting needy families;
- c) Supporting education for the needy;
- d) Supporting the handicapped; and
- e) Provision of healthcare services to the needy.

The terms and conditions of the Fund were originally approved by the Saudi Central Bank ("SAMA") and subsequently endorsed by the CMA through their letter dated 18 Dhul Hijja 1429H (corresponding to 16 December 2008). The Fund commenced its activities on 31 January 2002.

The Fund is governed by the Investment Fund Regulations (the "Regulations") published by Capital Market Authority ("CMA") on 3 Dhul Hijja 1427 H (corresponding to 24 December 2006) thereafter amended on 16 Sha'ban 1437 H (corresponding to 23 May 2016). The Regulations were further amended (the "Amended Regulations") on 17 Rajab 1442 H (corresponding to 1 March 2021), detailing requirements for all funds within the Kingdom of Saudi Arabia. The Amended Regulations have effective dates starting from 19 Ramadan 1442 H (corresponding to 1 May 2021).

The Fund is established under article 31 of the Investment Fund Regulations ("the Regulations") issued by the Capital Market Authority ("CMA").

2. BASIS OF ACCOUNTING

These financial statements of the Fund have been prepared in accordance with International Financial Reporting Standards ("IFRS") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA"), and to comply with the applicable provisions of the Investment Funds Regulations issued by Capital Market Authority, the Fund's terms and conditions and the Information Memorandum.

3. BASIS OF MEASUREMENT

The financial statements have been prepared on a historical cost convention using accrual basis of accounting and going concern except for investments measured at fair value through profit or loss ("FVTPL").

The Fund does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, assets and liabilities are presented in order of their liquidity.

4. FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). These financial statements are presented in Saudi Arabian Riyal ("SAR") which is the Fund's functional and presentation currency.

(Managed by SNB Capital Company - formerly known as NCB Capital Company)**

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

Expressed in Saudi Arabian Riyals '000 (unless otherwise stated)

5. CHANGES IN FUND'S TERMS AND CONDITIONS

The Fund Manager has updated the terms and conditions of the Fund during the year. The changes include revisions required to align the terms and conditions with the Amended Regulations, to reflect changes in the Fund Board and certain other administrative changes

6. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value hierarchy has the following levels:

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis. The Fund measures instruments quoted in an active market at a market price, because this price is reasonable approximation of the exit price.

If there is no quoted price in an active market, then the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction. The Fund recognizes transfer between levels of fair value at the end of the reporting year during which the change has occurred.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The fund has determined the fair value of investments in un-listed open-ended investment funds measured at FVTPL using unadjusted net asset value and classified them as level 2 as per the fair value hierarchy. During the year there has been no transfer in fair value hierarchy for FVTPL investments. For other assets and liabilities such as cash and cash equivalents, other receivables and other payables, the carrying values are a reasonable approximation of fair values.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2021

Expressed in Saudi Arabian Riyals '000 (unless otherwise stated)

7. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

7.1 *Cash and cash equivalents*

Cash equivalents include cash at bank and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

7.2 *Receivables*

Receivables are initially recognised when they are originated. A receivable without a significant financing component is initially measured at the transaction price (which is equivalent of the fair value) and subsequently at their amortised cost using effective interest / commission rate method.

7.3 *Financial assets and liabilities*

Classification of financial assets

On initial recognition, a financial asset is measured at its fair value and classified at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL").

Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and commission on the principal amount outstanding.

Financial assets measured at fair value through other comprehensive income ("FVOCI")

A financial asset is measured at fair value through FVOCI only if it meets both of the following conditions and is not designated as measured at FVTPL.

7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

7.3 *Financial assets and liabilities (continued)*

Classification of financial assets (continued)

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and commission on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Fund Manager may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Financial assets measured at fair value through profit or loss ("FVTPL")

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL.

Business model assessment

The Fund Manager assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice;
- how the performance of the portfolio is evaluated and reported to the Fund Manager;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Fund's stated objective for managing the financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Fund's original expectations, the Fund does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly purchased financial assets going forward.

Financial assets that are held for trading and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and commission

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. Interest or 'Commission' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

7.3 *Financial assets and liabilities (continued)*

In assessing whether the contractual cash flows are solely payments of principal and commission, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Fund considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Fund's claim to cash flows from specified assets (for example, non-recourse asset arrangements); and
- features that modify consideration of the time value of money – for example, periodical reset of interest / commission rates.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Fund changes its business model for managing financial assets.

Impairment of financial assets

The Fund assesses on a forward-looking basis the expected credit losses ("ECL") associated with its financial assets carried at amortised cost. The allowance is based on the ECLs associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination.

Classification of financial liabilities

The Fund classifies its financial liabilities at amortised cost unless it has designated liabilities at FVTPL.

Recognition and initial measurement

An entity shall recognise a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. Financial assets measured at FVTPL are initially recognized on the trade date, which the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognized on the date on which they are originated.

Financial asset or financial liability is measured initially at fair value plus or minus, for an item not measured at FVTPL, transaction costs that are directly attributable to its acquisition issue.

Subsequent measurement

Financial assets at FVTPL are subsequently measured at fair value. Net gain or losses including any foreign exchange gains and losses, are recognized in profit or loss in 'unrealised / realized gains / (losses) on investments – net' in the statement of profit or loss and other comprehensive income.

Financial assets and financial liabilities subsequently measured at amortised cost are measured as such using the effective interest / commission method and is recognized in the statement of comprehensive income. Any gain or loss on de-recognition is also recognized in the statement of comprehensive income. The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative commission using the effective interest / commission method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

7.3 *Financial assets and liabilities (continued)*

Derecognition

The Fund derecognizes a financial asset when the contractual rights to the cash flow from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

On derecognition of the financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognized in the statement of comprehensive income. Any commission in such transferred financial assets that is created or retained by the Fund is recognized as a separate asset or liability.

The Fund enters into transactions whereby it transfers assets recognized on its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all of the risk and rewards are retained, then the transferred assets are not derecognized. The Fund derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Fund has legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realize the asset and settle them liability simultaneously. Income and expenses are presented on a net basis for gain and losses from financial instruments at FVTPL and foreign exchange gains and losses.

7.4 *Provisions*

A provision is recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provision is not recognised for future operating losses.

7.5 *Equity per unit*

The Fund is open for subscription and redemption of units monthly, on the subscription day, which will be the last Saudi Business day of the Gregorian month. The equity per unit is calculated by dividing the equity attributable to unitholders included in the statement of financial position by the number of units outstanding at the year end.

7.6 *Distributions to the Unitholders*

Distribution to the Unitholders is accounted for as a deduction from net assets (equity) attributable to the Unitholders.

7.7 *Units in issue*

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund has redeemable units in issue. On liquidation of the Fund, they entitle the holders to the residual net assets. They rank pari passu in all respects and have identical terms and conditions. The redeemable units provide investors with the right to require redemption for cash at a value proportionate to the investor's share in the Fund's net assets at each redemption date as well as in the event of the Fund's liquidation.

Redeemable units are classified as equity as it meets all of the following conditions:

- it entitles the holder to a pro rata share of the Fund's net assets in the event of the Fund's liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- the instrument does not include any other features that would require classification as a liability; and
- the total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the Fund over the life of the instrument
- Incremental costs directly attributable to the issue or redemption of redeemable units are recognized directly in equity as a deduction from the proceeds or part of the acquisition cost.

7.8 *Taxation / zakat*

Under the current system of zakat and income tax in the Kingdom of Saudi Arabia, the Fund is exempt from paying any zakat and income tax. Zakat and income tax are considered to be the obligation of the Unitholders and are not provided in the financial statements.

The Value Added Tax ("VAT") applicable for fees and expenses are recognized in the statement of comprehensive income.

7.9 *Special commission income and expense*

Special commission income and expense presented in the statement of comprehensive income comprise commission on financial assets and financial liabilities measured at amortised cost calculated on an effective interest / commission basis.

The 'effective interest / commission rate' is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial instrument:

- to the carrying amount of the financial assets; or
- the amortised cost of the financial liability.

In calculating special commission income and expense, the effective interest / commission rate is applied to the gross carrying amount of the asset (when the assets is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, special commission income is calculated by applying the effective interest / commission rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of special commission income reverts to the gross basis.

7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

7.10 *Dividend income*

Dividend income is recognized in statement of comprehensive income on the date on which the right to receive payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income from equity securities designated as at fair value through profit or loss ("FVTPL") is recognized in statement of comprehensive income in a separate line item.

7.11 *Management fee expense*

Management fee expense is recognized in the statement of comprehensive income as the related services are performed.

7.12 *Accrued expenses and other payables*

Accrued expenses and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective commission rate method.

7.13 *New IFRS standards, IFRIC interpretations and amendments thereof, adopted by the Fund*

12. FINANCIAL RISK MANAGEMENT

12.1 Financial risk factors

The Fund's activities expose it to a variety of financial risks including market risk, credit risk, liquidity risk and operational risk. The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risks are primarily set up to be performed based on the limits established by the Fund Board. The Fund has its Terms and Conditions document that set out its overall business strategies, its tolerance of risks and its general risk management philosophy and is obliged to take actions to rebalance the portfolio in line with the investment guidelines.

12.1.1 Market risk

'Market Risk' is the risk that changes in market prices – such as commission rates, foreign exchange rates, equity prices and credit spreads – will affect the Fund's income or the fair value of its holdings in financial instruments.

a) Foreign exchange risk

Foreign exchange risk is the risk that the value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates and arises from financial instruments denominated in foreign currency.

The Fund does not have any foreign exchange risk since all of its transactions are carried out in SAR.

12. FINANCIAL RISK MANAGEMENT (CONTINUED)

12.1 *Financial risk factors (continued)*

12.1.1 *Market risk (continued)*

b) *Commission rate risk*

Commission rate risk is the risk that the value of the future cash flows of a financial instrument or fair values of fixed coupon financial instruments will fluctuate due to changes in market commission rates. As at 31 December 2021, the Fund is not exposed to commission rate risk as its assets and liabilities are non-commission bearing.

c) *Other price risk*

Other price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements. The price risk arises primarily from uncertainty about the future prices of financial instruments that the Fund holds. The Fund Manager daily monitors concentration of risk for equity based on securities and industries in line with defined limits while closely tracking the portfolio level volatilities. As of the statement of financial position date, Fund has investments in AlAhli Saudi Riyal Trade Fund ("Investee Fund").

The effect on the equity (as a result of the change in the fair value of investments as at 31 December) due to a reasonably possible notional change in market price of FVTPL investments, with all other variables held constants is as follows:

	<u>31 December 2021</u>	<u>31 December 2020</u>
Effect on equity	±10% <u>±2,298</u>	±10% <u>2,290</u>

12.1.2 *Credit risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Fund Manager seeks to manage credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties. As at the statement of financial position date, the Fund's maximum exposure to credit risk is represented by the carrying amount of cash and cash equivalents, which represent balances with a local Bank having Moody's credit rating of A3 and other receivables. There is no impact of ECL on these financial assets.

12. FINANCIAL RISK MANAGEMENT (CONTINUED)

12.1 *Financial risk factors (continued)*

12.1.3 *Liquidity risk*

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units monthly, on the subscription day, which will be the last Saudi Business day of the Gregorian month and it is, therefore, exposed to the liquidity risk of meeting unitholder redemptions on these days. The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by taking short term loans facilities obtained by the Fund Manager.

The contractual and expected maturity of all liabilities outstanding at the reporting date are within six months (2020: due within six months).

12.1.4 *Operational risk*

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of maximising returns to unitholders.

12. FINANCIAL RISK MANAGEMENT (CONTINUED)

12.1 *Financial risk factors (continued)*

12.1.4 *Operational risk (continued)*

The primary responsibility for the development and implementation of control over operational risks rests with the Risk Management Team. This responsibility is supported by the development of overall standard for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service levels with the service providers, in the following areas:

- documentation of controls and procedures;
- requirements for : -
 - appropriate segregation of duties between various functions, roles and responsibilities;
 - reconciliation and monitoring of transactions; and
 - periodic assessment of operational risks faced.
- the adequacy of controls and procedures to address the risks identified;
- compliance with regulatory and other legal requirements;
- development of contingency plans;
- training and professional development;
- ethical and business standards; and
- risk mitigation.

12.1.5 *Considerations due to COVID-19*

The COVID-19 pandemic continues to disrupt global markets as many geographies are experiencing re swinging waves of infections despite having previously controlled the outbreak through aggressive precautionary measures. The Government of the Kingdom of Saudi Arabia ("the Government") however, has managed to successfully control the outbreak to date, owing primarily to the effective measures taken by the Government.

The Fund Manager however continues to be cognizant of both the micro and macroeconomic challenges that COVID-19 has posed, the effects of which may be felt for some time and is closely monitoring its exposures.

13. EVENTS AFTER THE END OF THE REPORTING PERIOD

There was no event subsequent to the statement of financial position date which required adjustment of or disclosure in the financial statements or notes thereto.
