# Independent Auditor's Report

To the Unitholders of SNB Capital Emerging Markets Index Fund

## Opinion

We have audited the financial statements of **SNB Capital Emerging Markets Index Fund** (the "Fund") managed by the **SNB Capital Company** (the "Fund Manager"), which comprise the statement of financial position as at 31 December 2022, the statements of profit or loss and other comprehensive income, changes in net assets attributable to the Unitholders and cash flows for the year then ended, and notes to the financial statements, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS") that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

## Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards), that is endorsed in the Kingdom of Saudi Arabia (the "Code"), that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code's requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Responsibilities of the Fund Manager and Those Charged with Governance for the Financial Statements

The Fund Manager is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the SOCPA, and to comply with the applicable provisions of the Investment Funds Regulations issued by the Capital Market Authority ("CMA"), the Fund's terms and conditions, and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Fund Board, are responsible for overseeing the Fund's financial reporting process.

## Independent Auditor's Report

To the Unitholders of SNB Capital Emerging Markets Index Fund (continued)

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund Manager's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.
- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of **SNB Capital Emerging Markets Index Fund** ("the Fund").

**1. THE FUND AND ITS ACTIVITIES**

SNB Capital Emerging Markets Index Fund (the “Fund”) is a Shariah compliant, open-ended investment fund, established under article 31 of the Investment Funds Regulations, managed by the SNB Capital Company (the “Fund Manager”), a subsidiary of the Saudi National Bank (the “Bank”), for the benefit of the Fund’s Unitholders.

The Fund Manager has appointed an international investment house, Amundi - France, as sub-manager to the Fund. Their duties include opening separate independent investment accounts and managing the Fund’s assets in line with the investment strategies and Shariah guidelines. The Fund’s investments are held by Northern Trust Corporation, a custodian appointed by the Fund Manager.

The Fund invests in equity securities expected to benefit from growth in emerging markets.

The terms and conditions of the Fund were originally approved by the Saudi Arabian Monetary Authority (“SAMA”) and subsequently endorsed by CMA through its letter dated 18 Dhul Hijja 1429H (corresponding to 16 December 2008). The Fund commenced its activities on 16 Ramadan 1427H (corresponding to 9 October 2006).

The Fund is governed by the Investment Funds Regulations (the “Regulations”) published by the Capital Market Authority (“CMA”) on 3 Dhul Hijja 1427H (corresponding to 24 December 2006). The Regulations were amended (the “Amended Regulations”) on 12 Rajab 1442H (corresponding to 24 February 2021).

**2. BASIS OF ACCOUNTING**

These financial statements of the Fund have been prepared in accordance with International Financial Reporting Standards (“IFRS”) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (“SOCPA”), and comply with the applicable provisions of the Investment Funds Regulations issued by the CMA and the Fund’s terms and conditions.

**3. BASIS OF MEASUREMENT**

The financial statements have been prepared on historical cost convention using accrual basis of accounting and going concern concept except for investments measured at fair value through profit or loss (“FVTPL”) which are recorded at fair value.

The Fund does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, assets and liabilities are presented in order of their liquidity.

**4. CHANGES IN FUND’S TERMS AND CONDITIONS**

During the year, there have been no changes to the terms and conditions of the Fund.

**5. FUNCTIONAL AND PRESENTATION CURRENCY**

Items included in the financial statements are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). If indicators of the primary economic environment are mixed, then Fund Manager uses judgement to determine the functional currency that most faithfully effects the economic effect of the underlying transactions, events, and conditions. Investor subscriptions and redemptions are determined based on the net assets value and received and paid in US Dollar and expenses of the Fund are also paid in US Dollar. The Fund’s investments transactions are denominated in Indian Rupee, Hong Kong Dollar and certain other foreign currencies. Accordingly, Fund Manager has determined that the functional currency of the Fund is US Dollar (“USD”).

These financial statements are presented in United States Dollar (“USD”) which is the Fund’s functional and presentation currency and have been rounded off to the nearest thousand unless otherwise stated.

**6. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

*Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis. The Fund measures instruments quoted in an active market at market price, because this price is assessed to be a reasonable approximation of the exit price.

If there is no quoted price in an active market, then the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction. The Fund recognizes transfer between levels of fair value at the end of the reporting period during which the change has occurred.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: unobservable inputs for the asset or liability.

**6. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS**  
**(CONTINUED)**

The Fund has classified the investments measured at FVTPL as per the fair value hierarchy as level 1. During the year, there has been no transfer in fair value hierarchy for FVTPL investments. For other financial assets and liabilities not measured at fair value such as cash and cash equivalents, other receivables and other payables, the carrying values were determined to be a reasonable approximation of fair value due to their short-term nature. The Fund has classified cash and cash equivalents as level 1 while remaining financial assets and liabilities are classified as level 3 as per the fair value hierarchy.

**7. SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

**7.1 *Cash and cash equivalents***

Cash and cash equivalents include cash at bank and short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. Cash and cash equivalents include bank balances.

**7.2 *Financial assets and liabilities***

***Classification of financial assets***

On initial recognition, a financial asset is measured at its fair value and classified at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL").

***Financial assets measured at amortised cost***

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as measured at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and commission on the principal amount outstanding.

***Financial assets measured at FVOCI***

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as measured at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and commission on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Fund Manager may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

***Financial assets measured at FVTPL***

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL.

**7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**7.2 *Financial assets and liabilities (continued)***

***Classification of financial assets (continued)***

***Business model assessment***

The Fund Manager assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice;
- how the performance of the portfolio is evaluated and reported to the Fund Manager;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - for example whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Fund's stated objective for managing the financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Fund's original expectations, the Fund does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly purchased financial assets going forward.

Financial assets that are held for trading and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

***Assessment whether contractual cash flows are solely payments of principal and commission***

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. Interest or "commission" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (for example: liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and commission, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Fund considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Fund's claim to cash flows from specified assets (for example: non-recourse asset arrangements); and
- features that modify consideration of the time value of money – for example: periodical reset of interest / commission rates.

**7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**7.2 *Financial assets and liabilities (continued)***

***Classification of financial assets (continued)***

**Reclassifications**

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Fund changes its business model for managing financial assets.

***Classification of financial liabilities***

The Fund classifies its financial liabilities at amortised cost unless it has designated liabilities at FVTPL.

***Recognition and initial measurement***

Financial assets and liabilities measured at FVTPL are initially recognized on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. The Fund shall recognize a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognized on the date on which they are originated.

A financial asset or financial liability is measured initially at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition issue.

***Subsequent measurement***

Financial assets measured at FVTPL are subsequently measured at fair value. Net gain or losses including any foreign exchange gains and losses, are recognized in profit or loss in 'realized and unrealized gain / (loss) on FVTPL investments – net' in the statement of profit or loss and other comprehensive income.

Financial assets and financial liabilities measured at amortised cost are subsequently measured at amortised cost using the effective interest / commission rate method and is recognized in the statement of profit or loss and other comprehensive income. Any gain or loss on de-recognition is also recognized in the statement of profit or loss and other comprehensive income. The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative commission using effective interest / commission rate method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

***Derecognition***

The Fund derecognizes a financial asset when the contractual rights to the cash flow from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

---

**7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**7.2 *Financial assets and liabilities (continued)***

***Derecognition (continued)***

On derecognition of the financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognized in the statement of profit or loss and other comprehensive income. Any commission in such transferred financial assets that is created or retained by the Fund is recognized as a separate asset or liability.

The Fund enters into transactions whereby it transfers assets recognized on its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all of the risk and rewards are retained, then the transferred assets are not derecognized. The Fund derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

***Offsetting***

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Fund has a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis for gains and losses from financial instruments at FVTPL and foreign exchange gains and losses.

**7.3 *Provisions***

A provision is recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are not recognised for future operating losses.

**7.4 *Net assets value per unit***

The net assets value per unit is calculated by dividing the net assets attributable to the Unitholders included in the statement of financial position by the number of units outstanding at the year end.

**7.5 *Units in issue***

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund has redeemable units in issue. On liquidation of the Fund, they entitle the holders to the residual net assets. They rank pari passu in all respects and have identical terms and conditions. The redeemable units provide investors with the right to require redemption for cash at a value proportionate to the investor's share in the Fund's net assets at each redemption date as well as in the event of the Fund's liquidation.

**7. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**7.5 *Units in issue (continued)***

Redeemable units are classified as equity as these meet all of the following conditions:

- they entitle the holder to a pro rata share of the Fund's net assets in the event of the Fund's liquidation;
- they are in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that are subordinate to all other classes of instruments have identical features;
- the instruments do not include any other features that would require classification as a liability; and the
- total expected cash flows attributable to the instruments over their life are based substantially on the profit or loss, the change in recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the Fund over the life of the instrument.

Incremental costs directly attributable to the issue or redemption of redeemable units are recognized directly in net assets as a deduction from the proceeds or part of the acquisition cost.

**7.6 *Taxation / Zakat***

Under the current system of Zakat and income tax in the Kingdom of Saudi Arabia, the Fund is exempt from paying any Zakat and income tax. Zakat and income tax are considered to be the obligation of the Unitholders and are not provided in the financial statements.

The value added tax ("VAT") applicable for fees and expenses are recognized in the statement of profit or loss and other comprehensive income.

**7.7 *Dividend income***

Dividend income is recognized in statement of profit or loss and other comprehensive income on the date on which the right to receive payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of dividend. Dividend income from equity securities designated as measured at FVTPL is recognized in statement of profit or loss and other comprehensive income in a separate line item.

**7.8 *Management fees expense***

Management fees expense is recognized in the statement of profit or loss and other comprehensive income as the related services are performed.

**7.9 *Accrued expenses and other payables***

Accrued expenses and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective commission rate method.

**12. FINANCIAL RISK MANAGEMENT**

**12.1 *Financial risk factors***

The Fund's activities expose it to a variety of financial risks including market risk, credit risk, liquidity risk and operational risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risks are primarily set up to be performed based on the limits established in the terms and conditions document which sets out the Fund's overall business strategies, tolerance of risks and general risk management philosophy. In accordance with the terms and conditions of the Fund, the Fund Manager is obliged to take actions to re-balance the portfolio in line with the investment guidelines when needed.

**12.1.1 *Market risk***

'Market Risk' is the risk that changes in market prices – such as commission rates, foreign exchange rates, equity prices and credit spreads – will affect the Fund's income or the fair value of its holdings in financial instruments.

**a) *Foreign exchange risk***

Foreign exchange risk is the risk that the value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates and arises from financial instruments denominated in foreign currencies.

The Fund's financial assets and liabilities are denominated in currencies other than its functional currency. Accordingly, the value of the Fund's assets may be affected favorably or adversely by fluctuations in other currency rates except from fluctuation in the currency rate of Saudi Arabian Riyal as it is pegged against the US Dollar.

The effect on net assets of a reasonably possible notional movement of the US Dollar against the underlying currencies of the financial assets in foreign currencies with all other variables held constant is as follows:

	<b><u>Change in currency rates</u></b>	<b><u>31 December 2022</u></b>	<b><u>31 December 2021</u></b>
Indian Rupee	± 10 %	± 1,981	± 2,309
Hong Kong Dollar	± 10 %	± 1,535	± 1,956
South Korean Won	± 10 %	± 983	± 1,530
Taiwanese Dollar	± 10 %	± 942	± 1,471
Chinese Yuan	± 10 %	± 432	± 676
Other foreign currencies	± 10 %	± 1,292	± 1,841

**b) *Commission rate risk***

Commission rate risk is the risk that the value of the future cash flows of a financial instrument or fair values of fixed coupon financial instruments will fluctuate due to changes in market commission rates.

All the assets and liabilities of the Fund are non-commission bearing therefore the Fund is not exposed to commission rate risk.

*c) Other price risk*

Other price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements. Other price risk arises primarily from uncertainty about the future prices of financial instruments that the Fund holds. The Fund Manager daily monitors concentration of risk in equity securities based on companies and industries in line with defined limits while closely tracking the portfolio level volatilities. As of the statement of financial position date, the Fund has investments in quoted equity securities which are exposed to other price risk.

The effect on net assets attributable to the Unitholders (as a result of the change in the fair value of investments) due to a reasonably possible notional change in market value of 10% in the value of investments, with all other variables held constants, is as follows:

	<b><u>31 December 2022</u></b>	<b><u>31 December 2021</u></b>
Effect on net assets attributable to the Unitholder	<b><u>± 8,333</u></b>	<b><u>±11,387</u></b>

**12.1.2 Credit risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge their obligation and cause the other party to incur a financial loss. The Fund Manager seeks to manage credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties.

As at the statement of financial position date, the Fund's significant exposure to credit risk arises from cash and cash equivalents, which represents cash at bank with a local bank having Moody's credit rating of A3 which is line with globally understood definitions of investment grade. Accordingly, there is no impact of expected credit loss allowance on these financial assets.

**12.1.3 Liquidity risk**

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units on every Saudi and US Business Day (Monday to Thursday), and it is, therefore, exposed to the liquidity risk of not being able to meet the Unitholder's redemption requests on these days. The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by taking short-term loans from the facilities obtained by the Fund Manager.

The Fund manages its liquidity risk by investing predominantly in securities that it expects to be able to liquidate within a short period of time.

**12. FINANCIAL RISK MANAGEMENT (CONTINUED)**

**12.1 *Financial risk factors (continued)***

**12.1.4 *Operational risk***

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk to balance limiting of financial losses and damage to its reputation with achieving its investment objective of maximising returns to the Unitholders.

The primary responsibility for the development and implementation of control over operational risks rests with the Risk Management Team. This responsibility is supported by the development of overall standard for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service level agreements with the service providers, in the following areas:

- documentation of controls and procedures
- requirements for
  - appropriate segregation of duties between various functions, roles and responsibilities;
  - reconciliation and monitoring of transactions; and
  - periodic assessment of operational risks faced,
- the adequacy of controls and procedures to address the risks identified;
- compliance with regulatory and other legal requirements;
- development of contingency plans;
- training and professional development;
- ethical and business standards; and
- risk mitigation.
