3) Material Changes

3) تغيرات جوهرية حدثت خلال الفترة

- During 2025, the U.S. Federal Open Market Committee (FOMC) maintained its loose monetary policy, responding to continued moderation in inflation and signs of cooling in the labor market. Over the course of the year, the Committee implemented a cumulative 75 basis-point reduction in policy rates, bringing the Federal Funds Rate down from 4.25% in December 2024 to 3.50% by December 2025. Despite the rate cuts, U.S. inflation remained contained, with the Consumer Price Index (CPI) increasing 2.7% year-over-year in December 2025—compared to 2.9% annual inflation rate recorded in December 2024.
 - Global monetary policy moved in a similar direction, prompting the Saudi Central Bank (SAMA) to cut its key policy rates by 75 basis points year-on-year. By December 2025, the Repo rate had decreased from 5.00% to 4.25%, while the Reverse Repo rate declined from 4.50% to 3.75%.
 - U.S. Treasury yields experienced a broad-based downward shift alongside a notable steepening of the yield curve. The spread between the 10-year and
- خلال عام 2025، حافظت اللجنة الفيدرالية للسوق المفتوحة (FOMC) على سياستها النقدية التيسيرية، وذلك في ظل استمرار تباطؤ معدلات التضخم وظهور مؤشرات على تباطؤ سوق العمل. وعلى مدار العام، قامت اللجنة بخفض أسعار الفائدة بإجمالي 75 نقطة أساس، لينخفض معدل الفائدة على الأموال الفيدرالية من 4.25% في ديسمبر 2024 إلى 3.50% في ديسمبر 2025. وعلى الرغم من هذه التخفيضات، ظل التضخم تحت السيطرة، حيث ارتفع مؤشر أسعار المستهلكين (CPI) بنسبة 2.7% على أساس سنوي في نوفمبر 2025، وهي نفس النسبة المسجلة في نوفمبر 2024.
- شهدت السياسة النقدية عالمياً اتجاهًا مشابهًا، حيث قام البنك المركزي السعودي (ساما) بخفض معدلات سياسته النقدية بإجمالي 75 نقطة أساس على أساس سنوي. وبنهاية ديسمبر 2025، انخفض معدل اتفاقيات إعادة الشراء (الريبو) من 5.00% إلى 4.25%، كما تراجع معدل اتفاقيات إعادة الشراء العكسي (الريبو العكسي) من 4.50% إلى 3.75%.
- كما شهد منحنى العائد على سندات الخزانة الأمريكية انخفاضاً واسع النطاق مصحوباً بزيادة ملحوظة في انحدار المنحنى. فقد اتسع الفارق بين عوائد السندات لأجل 10 سنوات و2 سنة من 33 نقطة أساس إلى 69 نقطة أساس خلال العام. وانخفض عائد السندات لأجل سنتين بمقدار 77 نقطة أساس ليصل إلى 3.48%، وتراجع عائد السندات لأجل 5 سنوات بمقدار 66 نقطة أساس ليلعب 3.73%، بينما انخفض عائد السندات لأجل 10 سنوات بمقدار 40 نقطة أساس ليصل إلى 4.17% مقارنةً بنهاية عام 2024. وتعكس هذه التحركات ضعفاً في مؤشرات سوق العمل، بما

- 2-year maturities widened from 33 basis points to 69 basis points over the year. The 2-year U.S. Treasury yield decreased by 77 basis points to 3.48%, the 5-year yield declined by 66 basis points to 3.73%, and the 10-year yield fell by 40 basis points to 4.17% compared to year-end 2024. These yield movements were consistent with weakening labor-market conditions, including a 52% year-over-year decline in Non-Farm Payroll growth for the twelve months ending November 2025.
- SAR denominated Saudi Arabian sovereign sukuk yields also trended lower across most maturities. The 2-year sukuk yield declined by 38 basis points from 5.30% to 4.92%, while the 5-year sukuk yield decreased by 37 basis points from 5.47% to 5.10%. The 10-year sukuk yield remained broadly stable, edging down by 2 basis points from 5.75% to 5.73%.
 - Saudi Arabian Interbank Offered Rates (SAIBOR) declined across all major tenors during 2025. The 1-Month, 3-Month, and 12-Month SAIBOR rates decreased by 86 basis points, 68 basis points, and 17 basis points, reaching 5.62%, 5.54%, and 5.25% respectively as of 31 December 2025.
 - Similarly, U.S. dollar Term SOFR rates recorded year-over-year declines. The 1-Month and 3-Month SOFR tenors each fell by 65 basis points, while the 12-Month tenor declined by 76 basis points, ending the year at 3.69%, 3.65%, and 3.42% respectively.
 - Saudi sovereign debt issuance increased notably during the year, with issuances reaching SAR 401 billion in 2025, compared with SAR 245 billion for 2024. As a result, total outstanding government debt rose to SAR 1,519 billion as of December 2025, equivalent to 33% of GDP, up from 26% at the end of 2024.
 - Excess Saudi Riyal liquidity in the banking sector—measured by the net daily average of reverse repo volumes—rose significantly, averaging SAR 41 billion for the year, an 88% increase from SAR 22 billion compared to 2024. Broad money supply (M3) continued to expand steadily, reaching SAR 3.19 trillion by 2025 year-end, representing year-over-year growth of 9.11%. Brent crude oil prices averaged USD 68 per barrel in 2025, approximately USD 12 per barrel (-15%) lower than the 2024 average of USD 80 per barrel.
- في ذلك تراجع نمو الوظائف غير الزراعية بنسبة 52% على أساس سنوي خلال الاثني عشر شهرًا المنتهية في نوفمبر 2025.
- أما منحى الصكوك السيادية السعودية المقومة بالريال السعودي، فقد شهد انخفاضاً عبر معظم الأجل. حيث تراجع عائد الصكوك لأجل سنتين بمقدار 38 نقطة أساس من 5.30% إلى 4.92%، وانخفض عائد الصكوك لأجل 5 سنوات بمقدار 37 نقطة أساس من 5.47% إلى 5.10%. بينما ظل عائد الصكوك لأجل 10 سنوات مستقرًا نسبيًا، مسجلًا انخفاضًا طفيفًا بمقدار نقطتين أساس من 5.75% إلى 5.73%.
 - انخفضت معدلات السايبور (SAIBOR) في المملكة العربية السعودية عبر جميع الأجل خلال عام 2025. حيث تراجع سايبور لشهر واحد وثلاثة أشهر واثنى عشر شهرًا بمقدار 86 و68 و17 نقطة أساس على التوالي، ليصل إلى 5.62% و5.54% و5.25% بنهاية 31 ديسمبر 2025.
 - وبالمثل، سجلت معدلات الـ Term SOFR المقومة بالدولار الأمريكي تراجعاً على أساس سنوي. فقد انخفض كلٌّ من أجل شهر واحد وثلاثة أشهر بمقدار 65 نقطة أساس، بينما تراجع أجل اثني عشر شهرًا بمقدار 76 نقطة أساس، لتنتهي السنة عند 3.69% و3.65% و3.42% على التوالي.
 - ارتفع إصدار الديون السيادية السعودية بشكل ملحوظ خلال العام، حيث بلغ إجمالي الإصدارات 401 مليار ريال سعودي في عام 2025، مقارنةً بـ 245 مليار ريال سعودي خلال عام 2024. ونتيجة لذلك، ارتفع إجمالي الدين الحكومي القائم إلى 1,519 مليار ريال سعودي بنهاية عام 2025، ما يعادل 33% من الناتج المحلي الإجمالي، مقارنةً بـ 26% في نهاية عام 2024.
 - ارتفع فائض السيولة بالريال السعودي في القطاع المصرفي—بمتوسط صافي أحجام عمليات إعادة الشراء العكسية اليومية—بشكل ملحوظ، إذ بلغ متوسطه 41 مليار ريال سعودي خلال العام، بزيادة قدرها 88% مقارنةً بـ 22 مليار ريال سعودي خلال عام 2024. كما واصل عرض النقود الواسع (M3) نموه بوتيرة مستقرة، ليصل إلى 3.19 تريليون ريال سعودي حتى 27 ديسمبر، مسجلًا نموًا سنويًا بنسبة 9.11%.
 - بلغ متوسط سعر خام برنت 68 دولارًا للبرميل في عام 2025، أي أقل بنحو 12 دولارًا للبرميل (-15%) مقارنةً بمتوسط عام 2024 البالغ 80 دولارًا للبرميل.

New regulations effective during the year

"The Minister of Finance via Ministerial Resolution No. (29791) dated 9 Jumada-al-Awwal 1444 H (corresponding to 3 December 2022) approved the Zakat Rules for Investment Funds permitted by the CMA.

The Rules are effective from 1 January 2023 requiring Investment Funds to register with Zakat, Tax and Customs Authority (ZATCA). The Rules also require the Investment Funds to submit an information declaration to ZATCA within 120 days from the end of their fiscal year, including audited financial statements, records of related party transactions and any other data requested by ZATCA. Under the Rules, Investment Funds are not subject to Zakat provided they do not engage in unstipulated economic or investment activities as per their CMA approved Terms and Conditions. Unitholders are obliged to pay due ZAKAT based on their unit owned.

During the current year, the Fund Manager has completed the registration of the Fund with ZATCA and submitted information declaration on time and the due ZAKAT amount for the year ended 31 December 2025 for the fund units was amounted to 0.04083 Saudi Riyal per unit. Knowing that fund investment in local KSA SAR government SUKUK as at 31 December 2025 amounted to 1,771,300,000.00".

اللوائح الجديدة سارية المفعول خلال العام

"وافق وزير المالية بموجب القرار الوزاري رقم (29791) وتاريخ 9 جمادى الأولى 1444 هـ (الموافق 3 ديسمبر 2022م) على قواعد الزكاة لصناديق الاستثمار المسموح بها من قبل هيئة السوق المالية.

تسري القواعد اعتبارًا من 1 يناير 2023 وتتطلب من صناديق الاستثمار التسجيل لدى هيئة الزكاة والضرائب والجمارك (الهيئة). كما تلزم القواعد أيضًا من صناديق الاستثمار تقديم إقرار معلومات إلى (الهيئة) خلال 120 يومًا من نهاية سنتها المالية، بما في ذلك القوائم المالية المدققة وسجلات المعاملات الأطراف ذات العلاقة وأي بيانات أخرى تطلبها الهيئة بموجب القواعد، لا تخضع صناديق الاستثمار للزكاة بشرط ألا تمارس أنشطة اقتصادية أو استثمارية غير مشروطة وفقا للشروط والأحكام المعتمدة من هيئة أسواق المال. سيتحمل كل مالك في حدود ملكيته سداد الزكاة عن تلك الوحدات.

خلال العام الحالي، أكمل مدير الصندوق عملية تسجيل الصندوق لدى الهيئة وتم تقديم إعلان المعلومات في الوقت المناسب وكان مبلغ الزكاة الواجب أدائه للعام المالي المنتهي في 31 ديسمبر 2025 عن وحدات الصندوق 0.04083 ريال سعودي عن كل وحدة. مع العلم بأن استثمارات الصندوق في صكوك الحكومة السعودية المصدرة محليًا بالريال السعودي قد بلغت في 31 ديسمبر 2025 1,771,300,000.00".

Independent Auditor's Report

To the Unitholders of the SNB Capital Diversified Saudi Riyal Fund

Opinion

We have audited the financial statements of the **SNB Capital Diversified Saudi Riyal Fund** (the "Fund") managed by the SNB Capital Company (the "Fund Manager"), which comprise the statement of financial position as at 31 December 2025, the statements of profit or loss and other comprehensive income, changes in net assets attributable to the Unitholders and cash flows for the year then ended, and notes to the financial statements, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS Accounting Standards") as issued by the International Accounting Standards Board that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards), that is endorsed in the Kingdom of Saudi Arabia, that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code's requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Fund Manager and Those Charged with Governance for the Financial Statements

The Fund Manager is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the SOCPA, and to comply with the applicable provisions of the Investment Funds Regulations issued by the Capital Market Authority ("CMA"), the Fund's terms and conditions, and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Fund Board, are responsible for overseeing the Fund's financial reporting process.

Independent Auditor's Report

To the Unitholders of the SNB Capital Diversified Saudi Riyal Fund (continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund Manager's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.
- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of the **SNB Capital Diversified Saudi Riyal Fund**.

SNB CAPITAL DIVERSIFIED SAUDI RIYAL FUND
(Managed by the SNB Capital Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2025

Expressed in Saudi Arabian Riyals '000 (unless otherwise stated)

1. THE FUND AND ITS ACTIVITIES

SNB Capital Diversified Saudi Riyal Fund (the “Fund”) is an open-ended investment fund, established under article 32 of the Investment Funds Regulations (the “Regulations”) issued by the Capital Market Authority (“CMA”), managed by the SNB Capital Company (the “Fund Manager”), a subsidiary of the Saudi National Bank (the “Bank”), for the benefit of the Fund's Unitholders.

The Fund offers investors the opportunity to participate in trade transactions which conform to Shariah principles, invest in Sukuk and other mutual funds or instruments that comply with Shariah investment principles. The Fund does not make any distributions to the Unitholders. Instead, capital gains and dividends are reinvested.

The terms and conditions of the Fund were originally approved by the Saudi Central Bank (“SAMA”) and subsequently endorsed by the CMA through its letter dated 18 Dhul Hijja 1429 H (corresponding to 16 December 2008). The Fund commenced its operations on 5 Sha’aban 1424 H (corresponding to 1 October 2003).

2. REGULATING AUTHORITY

The Fund is governed by the Regulations published by the CMA’s Board Resolution no. 1-219-2006 dated 3 Dhul Hijja 1427 H (corresponding to 24 December 2006) thereafter amended pursuant to the CMA’s Board Resolution no. 1-135-2025 dated 3 Jumada Al Thani 1447 H (corresponding to 24 November 2025) detailing requirements for all funds within the Kingdom of Saudi Arabia.

3. BASIS OF ACCOUNTING

These financial statements of the Fund have been prepared in accordance with International Financial Reporting Standards (“IFRS Accounting Standards”) as issued by the International Accounting Standards Board that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (“SOCPA”) and comply with the applicable provisions of the Investment Funds Regulations issued by the CMA and the Fund’s terms and conditions.

4. BASIS OF MEASUREMENT AND PRESENTATION

These financial statements have been prepared on a historical cost convention using the accrual basis of accounting and going concern concept except for investments measured at fair value through profit or loss (“FVTPL”) which are recorded at fair value.

The Fund does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, assets and liabilities are presented in order of their liquidity.

5. FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). These financial statements are presented in Saudi Arabian Riyals (“SAR”) which is the Fund’s functional and presentation currency and have been rounded off to the nearest thousand unless otherwise stated.

Expressed in Saudi Arabian Riyals '000 (unless otherwise stated)

6. CHANGES IN FUND'S TERMS AND CONDITIONS

During the year, there have been no significant changes to the terms and conditions of the Fund.

7. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires the Fund Manager to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

Significant areas where management has used estimates, assumptions or exercised judgements are as follows:

a) Measurement of expected credit loss ('ECL') allowance

The measurement of ECL allowance for financial assets measured at amortised cost requires the use of complex models and significant assumptions about future economic conditions and credit behavior.

A number of significant judgments are also required in applying the accounting requirements for measuring ECL allowance, such as:

- Choosing appropriate models and assumptions for the measurement of ECL allowance;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product / market; and
- Determining criteria for significant increase in credit risk.

Explanation of the inputs, assumptions and estimation techniques used in measuring ECL allowance are further detailed in note 15.2 (a) of these financial statements.

8. MATERIAL ACCOUNTING POLICIES

The Fund has consistently applied the following accounting policies to all periods presented unless otherwise stated and the material accounting policies applied in the preparation of these financial statements are set out below.

8.1 *Financial assets and liabilities*

Classification of financial assets

On initial recognition, a financial asset is measured at its fair value and classified as measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL").

8. MATERIAL ACCOUNTING POLICIES (CONTINUED)

8.1 *Financial assets and liabilities (continued)*

Classification of financial assets (continued)

Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as measured at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest / commission on the principal amount outstanding.

Financial assets measured at FVOCI

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as measured at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest / commission on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Fund Manager may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Financial assets measured at FVTPL

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL.

Business model assessment

The Fund Manager assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice;
- how the performance of the portfolio is evaluated and reported to the Fund Manager;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – for example, whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Fund's stated objective for managing the financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Fund's original expectations, the Fund does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly purchased financial assets going forward.

8. MATERIAL ACCOUNTING POLICIES (CONTINUED)

8.1 *Financial assets and liabilities (continued)*

Classification of financial assets (continued)

Business model assessment (continued)

Financial assets that are held for trading and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and interest / commission

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. Interest or 'commission' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (for example: liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest / commission, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Fund considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Fund's claim to cash flows from specified assets (for example, non-recourse asset arrangements); and
- features that modify consideration of the time value of money – for example, periodical reset of interest / commission rates.

Impairment of financial assets

The Fund assesses on a forward-looking basis the ECL allowance associated with its financial assets carried at amortised cost. The allowance is based on the ECLs associated with the probability of default in the next twelve months unless there has been a significant increase in credit risk since origination.

Classification of financial liabilities

The Fund classifies its financial liabilities at amortised cost unless it has designated liabilities at FVTPL.

Recognition and initial measurement

Financial assets and liabilities measured at FVTPL are initially recognized on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. The Fund shall recognise a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognized on the date on which they are originated.

A financial asset or financial liability is measured initially at fair value plus or minus, for an item not measured at FVTPL, transaction costs that are directly attributable to its acquisition.

8. MATERIAL ACCOUNTING POLICIES (CONTINUED)

8.1 *Financial assets and liabilities (continued)*

Subsequent measurement

Financial assets measured at FVTPL are subsequently measured at fair value. Net gain or losses including any foreign exchange gains and losses, are recognized in the statement of profit or loss in 'realized and unrealized gains / (loss) on FVTPL investments – net'.

Financial assets and financial liabilities measured at amortised cost are subsequently measured at amortised cost using the effective interest / commission method and is recognized in the statement of profit or loss. Any gain or loss on de-recognition is also recognized in the statement of profit or loss. The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative commission using effective interest / commission method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

Derecognition

The Fund derecognizes a financial asset when the contractual rights to the cash flow from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

On derecognition of the financial asset, the difference between the carrying amount of the asset and the consideration received is recognized in the statement of profit or loss.

The Fund enters into transactions whereby it transfers assets recognized on its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all of the risk and rewards are retained, then the transferred assets are not derecognized. The Fund derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Fund has a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realize the asset and settle liability simultaneously.

Income and expenses are presented on a net basis for gains and losses from financial instruments at FVTPL and foreign exchange gains and losses.

8.2 *Net assets value per unit*

The net assets value per unit is calculated by dividing the net assets attributable to the Unitholders included in the statement of financial position by the number of units outstanding at the year end.

8. MATERIAL ACCOUNTING POLICIES (CONTINUED)

8.3 Units in issue

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund has redeemable units in issue. On liquidation of the Fund, they entitle the holders to the residual net assets. They rank pari passu in all respects and have identical terms and conditions. The redeemable units provide investors with the right to require redemption for cash at a value proportionate to the investor's share in the Fund's net assets at each redemption date as well as in the event of the Fund's liquidation.

Redeemable units are classified as equity as these meet all of the following conditions:

- they entitle the holder to a pro rata share of the Fund's net assets in the event of the Fund's liquidation;
- they are in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that are subordinate to all other classes of instruments have identical features;
- the instruments do not include any other features that would require classification as a liability; and
- the total expected cash flows attributable to the instruments over their life are based substantially on the profit or loss, the change in recognized net assets or the change in the fair value of the recognized and unrecognized net assets of the Fund over the life of the instruments.

Incremental costs directly attributable to the issue or redemption of redeemable units are recognized directly in net assets as a deduction from the proceeds or part of the acquisition cost.

8.4 Special commission income and expense

Special commission income and expense presented in the statement of profit or loss comprises of commission on financial assets and financial liabilities measured at amortised cost calculated on an effective interest / commission rate basis.

The 'effective interest / commission rate' is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial instrument:

- to the carrying amount of the financial assets; or
- the amortised cost of the financial liability.

In calculating special commission income and expense, the effective interest / commission rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, special commission income is calculated by applying the effective interest / commission rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of special commission income reverts to the gross basis.

8.5 Net gain or loss on financial assets and liabilities at FVTPL

Net gains or losses on financial assets and liabilities at FVTPL are changes in the fair value of financial assets and liabilities held for trading or designated upon initial recognition as at FVTPL and exclude interest and dividend income. Unrealised gains and losses comprise changes in the fair value of financial instruments for the year and from reversal of the prior year's unrealised gains and losses for financial instruments, which were realised in the reporting period. Realised gains and losses on disposals of financial instruments classified as at FVTPL are calculated using the weighted average cost method. They represent the difference between an instrument's initial carrying amount and disposal amount.

11. REPURCHASE AGREEMENT BORROWING

The Fund has entered into a repurchase agreement borrowing with the Saudi National Bank, a related party, amounting to SAR 1,121,300,645. It carries interest at a rate of 4.38% per annum and with maturity up to 6 January 2026. As at 31 December 2025, interest accrued on this borrowing amounted to SAR 42,598.

The market value of Sukuk given as a collateral against this borrowing is SAR 1,162,451,596.

12. RECONCILIATION OF CHANGES IN NET ASSETS ATTRIBUTABLE TO THE UNITHOLDERS

As per the requirements of CMA circular dated 31 December 2017, the Fund calculates provision for impairment in respect of financial investments measured at amortized cost using the incurred loss model, whereas IFRS 9 requires provisions to be measured using the Expected Credit Loss (“ECL”) method. This results in a difference between net assets calculated as per the requirements of IFRS 9 (“reported net assets”) and as per CMA circular (“trading net assets”).

The following table shows the reconciliation between the Fund’s reported net assets and trading net assets:

	<i>31 December 2025</i>	<i>31 December 2024</i>

The Fund's activities expose it to a variety of financial risks including market risks, credit risks, liquidity risk and operational risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall governance of the Fund.

Monitoring and controlling risks are primarily set up to be performed based on the limits established in the terms and conditions document which sets out the Fund's overall business strategies, tolerance of risks and general risk management philosophy. Compliance with the limits are monitored by the Fund Board on a quarterly basis. In instances where portfolio has diverged from limits prescribed in the terms and conditions of the Fund, the Fund Manager is obliged to take actions to re-balance the portfolio in line with the investment guidelines within prescribed timelines.

15. FINANCIAL RISK MANAGEMENT (CONTINUED)

15.1 Market risks

'Market Risk' is the risk that changes in market prices – such as currency risk, commission rate risk and other market prices – will affect the Fund's income or the fair value of its holdings in financial instruments.

a) Currency risk

Currency risk is the risk that the value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates and arises from financial instruments denominated in foreign currencies.

The Fund does not have any currency risk since all the transactions are carried out in SAR.

b) Commission rate risk

Commission rate risk is the risk that the value of the future cash flows of a financial instrument or fair values of fixed coupon financial instruments will fluctuate due to changes in market commission rates. The Fund manages commission rate risk by investing in financial instruments that mature or re-price in the short term. Accordingly, the Fund is subject to limited exposure to fair value or cash flow commission rate risk due to fluctuations in the prevailing levels of market commission rate.

At 31 December 2025, the Fund is exposed to commission rate risk on its investments which are measured at amortized cost and Repurchase agreement borrowing.

A reasonably possible change of 100 basis points in interest rates at the reporting date would effect net assets and profit or loss is as follows:

	<i>31 December</i> <u>2025</u>	<i>31 December</i> <u>2024</u>
Investments measured at amortised cost – net		
- Investments in Sukuk	24,929	33,209
- Investments in Murabaha contracts	3,094	3,214
Repurchase agreement borrowing	11,213	8,134

c) Other market price risk

Other market price risk is the risk that the value of the Fund's financial instruments will fluctuate as a result of changes in market prices caused by factors other than foreign currency and commission rate movements. This other market price risk arises primarily from uncertainty about the future prices of financial instruments that the Fund holds. The Fund Manager daily monitors concentration of risk in securities and industries in line with defined limits while closely tracking the portfolio level volatilities.

The effect on the net assets value as a result of the change in the fair value of investments as at 31 December due to a reasonably possible notional change in market value of FVTPL investments by 10%, with all other variables held constants is as follows:

	31 December <u>2025</u>	31 December <u>2024</u>
Effect on net assets attributable to the Unitholders	<u>±18,678</u>	<u>±22,660</u>

15. FINANCIAL RISK MANAGEMENT (CONTINUED)

15.2 *Credit risks*

Credit risk is the risk that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Fund Manager seeks to manage credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties.

The Fund is exposed to credit risk from its investments measured at amortised cost and bank balances. The bank balance is held with a custodian in a brokerage account having Moody's credit rating of A2 which is in line with globally understood definition of investment grade. Accordingly, there is no significant impact of expected credit loss allowance on this balance.

a) *General approach for expected credit loss allowance*

The Fund measures loss allowance at an amount equal to lifetime ECL for Stage 2 & Stage 3 exposures while loss allowance for Stage 1 exposures is measured at 12-month ECL.

12-month ECLs are the portion of ECL that result from default events on a financial instrument that are possible within 12 months after the reporting date.

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of default (PD)
- Loss given default (LGD)
- Exposure at default (EAD)

The Fund categorizes its financial assets into following three stages in accordance with the IFRS 9 methodology:

- Stage 1 – financial assets that are not significantly deteriorated in credit quality since origination. The impairment allowance is recorded based on 12 months PD.
- Stage 2 – financial assets that has significantly deteriorated in credit quality since origination. The impairment allowance is recorded based on lifetime ECL. The impairment allowance is recorded based on lifetime PD.
- Stage 3 – financial assets that are credit impaired, the Fund recognizes the impairment allowance based on lifetime PD.

In assessing whether credit risk has increased significantly, the Fund examines the change in the risk of default occurring over the expected life of the financial instrument. The staging criteria considers strong indicators of associated credit risk for each respective portfolio. Though the Fund has historically experienced no defaults across the funds, the Stage 2 criteria seeks to identify triggers indicative of a higher propensity to default while the finalized Stage 3 criteria lists objective indicators of default. The Fund also considers the forward-looking information in its assessment of significant deterioration in credit risk since origination as well as the measurement of ECL allowance.

15. FINANCIAL RISK MANAGEMENT (CONTINUED)

15.2 Credit risks (continued)

b) Expected credit loss allowance measurement

ECL allowance represents probability-weighted estimates of credit losses. These are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Fund in accordance with the contract and the cash flows that the Fund expects to receive).
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows.

The table below shows financial instruments subject to impairment:

	<i>As at 31 December</i>			
	<i>2025</i>			
	<i>Stage 1</i>	<i>Stage 2</i>	<i>Stage 3</i>	<i>Total</i>
Investments measured at amortised cost	2,802,269	--	--	2,802,269
Expected credit loss allowance	(727)	--	--	(727)
Carrying amount	2,801,542	--	--	2,801,542
	<i>As at 31 December</i>			
	<i>2024</i>			
	<i>Stage 1</i>	<i>Stage 2</i>	<i>Stage 3</i>	<i>Total</i>
Investments measured at amortised cost	3,642,242	--	--	3,642,242
Expected credit loss allowance	(869)	--	--	(869)
Carrying amount	3,641,373	--	--	3,641,373

- As IFRS 9 requires entities to adopt a futuristic outlook of the macroeconomic scenarios in their estimates of risk parameters, the usage of a scenario framework for the same is imperative. The Fund has adopted scenario weights for three scenarios – baseline, upturn and downturn in line with external economic outlook and industry practice.
- The risk estimates derived are used along with the cashflows to arrive at the probability weighted ECL allowance across different stages.

The Fund Manager reviews credit concentration of the investment portfolio based on counterparties. The credit quality of the financial assets is managed using the ratings from reputable credit ratings agencies.

b) Expected credit loss allowance measurement (continued)

As at 31 December, the Fund has investments measured at amortized cost with the following credit quality:

<i>Credit ratings</i>	<i>31 December 2025</i>	<i>31 December 2024</i>
A+	4%	--
A	7%	3%
A-	28%	42%
AA -	61%	47%
BBB+	--	8%
	<u>100%</u>	<u>100%</u>

The Fund Manager also reviews the credit concentration of the investment portfolio based on counterparties' geographical locations. Since the Fund has all the investments in the Kingdom of Saudi Arabia, therefore the Fund is not exposed to credit risk related to geographical distribution.

Investments measured at amortised cost

The following table explains the changes in the expected credit loss allowance for investments measured at amortised cost:

	<i>Stage 1</i>	<i>Stage 2</i>	<i>Stage 3</i>	<i>Total</i>
Expected credit loss allowance as at 1 January 2025	869	--	--	869
Reversal of expected credit loss allowance	(142)	--	--	(142)
Expected credit loss allowance as at 31 December 2025	727	--	--	727
	<i>Stage 1</i>	<i>Stage 2</i>	<i>Stage 3</i>	<i>Total</i>
Expected credit loss allowance as at 1 January 2024	1,621	--	--	1,621
Reversal of expected credit loss allowance	(752)	--	--	(752)
Expected credit loss allowance as at 31 December 2024	869	--	--	869

There was no movement in stages of financial instruments during the year.

15. FINANCIAL RISK MANAGEMENT (CONTINUED)

15.3 *Liquidity risk*

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units on every Saudi business day and it is, therefore, exposed to the liquidity risk of not being able to meet Unitholders' redemption requests on these days. The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, through new subscriptions or liquidation of the investment portfolio and by investing predominantly in securities that it expects to be able to liquidate within a short period of time.

15.4 *Operational risk*

Operational risk is the risk of direct or indirect losses arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of maximising returns to the Unitholders.

The primary responsibility for the development and implementation of control over operational risks rests with the Risk Management Team. This responsibility is supported by the development of overall standard for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service level agreements with the service providers, in the following areas:

- documentation of controls and procedures;
- requirements for:
 - appropriate segregation of duties between various functions, roles and responsibilities;
 - reconciliation and monitoring of transactions; and
 - periodic assessment of operational risks faced.
- the adequacy of controls and procedures to address the risks identified;
- compliance with regulatory and other legal requirements;
- development of contingency plans;
- training and professional development;
- ethical and business standards; and
- risk mitigation.

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis. The Fund measures instruments quoted in an active market at a market price, because this price is assessed to be a reasonable approximation of the exit price.

If there is no quoted price in an active market, then the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction. The Fund recognizes transfer between levels of fair value at the end of the reporting year during which the change has occurred.

The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: unobservable inputs for the asset or liability.

The following table shows the carrying amounts and fair values of financial instruments, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value. All fair value measurements below are recurring.

	<i>As at 31 December 2025</i>				
	<i>Carrying amount</i>	<i>Fair value</i>			
		<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
<u>Financial assets measured at fair value</u>					
FVTPL investments	186,782	--	186,782	--	186,782
<u>Financial assets not measured at fair value</u>					
Investments measured at amortised cost	2,801,542	--	2,258,608	--	2,258,608

16. FAIR VALUE MEASUREMENT (CONTINUED)

	<i>As at 31 December 2024</i>				
	<i>Carrying amount</i>	<i>Fair value</i>			
		<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
<i>Financial assets measured at fair value</i>					
FVTPL investments	226,595	--	226,595	--	226,595
<i>Financial assets not measured at fair value</i>					
Investments measured at amortised cost	3,641,373	--	2,320,838	--	2,320,838

The Fund determines fair value of investments in un-listed open-ended investment funds measured at FVTPL using unadjusted net assets value and classified them as level 2, whereas the fair value of investments measured at amortized cost is classified as level 2 as per fair value hierarchy and has been determined using observable input parameters derived from comparable markets.

During the year, there has been no transfer in fair value hierarchy for any financial assets or liabilities. For other financial assets and liabilities such as cash and cash equivalents, other receivables and other payables, the carrying values were determined to be a reasonable approximation of fair value due to their nature.

17. LAST VALUATION DAY

The last valuation of day for the year was 31 December 2025 (2024: 31 December 2024).

18. COMPARATIVE FIGURES

Figures have been rearranged or reclassified wherever necessary for the purposes of better presentation; however, no significant rearrangements or reclassifications have been made in these financial statements.

19. EVENTS AFTER THE END OF THE REPORTING PERIOD

The recent regional military escalations have triggered a high-risk conflict environment across the Gulf. The situation is still very fluid, and scenarios can shift very quickly. The escalations have brought about additional uncertainties in the Fund’s operating environment. With respect to financial statements for the year ended 31 December 2025, the potential financial reporting effects of the conflict are considered to be non-adjusting in nature.

The Fund Manager has been closely monitoring the impact of the developments on the Fund’s investment. As the situation is fast evolving and fluid, the effect of the escalations is subject to significant levels of uncertainty, with the full range of possible effects unknown.

20. APPROVAL OF THE FINANCIAL STATEMENTS

These financial statements were approved by the Fund Board on 26 Ramadan 1447 H corresponding to 15 March 2026.
