**INDEPENDENT AUDITOR'S REVIEW REPORT ON THE
CONDENSED INTERIM FINANCIAL STATEMENTS****To the Unitholders****BMK IPO Fund**

(Managed by Bait Al Mal Al Khaleeji Company)

Introduction

We have reviewed the accompanying condensed interim statement of financial position of BMK IPO Fund (the "Fund"), managed by Bait Al Mal Al Khaleeji Company (the "Fund Manager") as at 30 June 2026, and the related condensed interim statements of profit or loss and other comprehensive income, changes in net assets attributable to unit holders and cash flows for the six-month period then ended, and other explanatory notes. The Fund Manager is responsible for the preparation and presentation of these condensed interim financial statements in accordance with IAS 34 'Interim Financial Reporting' ("IAS 34") as endorsed in the Kingdom of Saudi Arabia and to comply with the Fund's terms and conditions. Our responsibility is to express a conclusion on the condensed interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410 'Review of Interim Financial Statements Performed by the Independent Auditor of the Entity' as endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 3.1 to these condensed interim financial statements, which indicates that the Fund Manager has resolved to liquidate the Fund. As at 30 June 2026, this decision remains subject to the approval of the Capital Market Authority ("CMA"), and the approval process is still in progress. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Fund's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

1 THE FUND AND ITS ACTIVITIES

BMK IPO Fund ("the Fund") is an open-ended investment Fund, established and managed by Bait Al Mal Al Khaleeji Company ("the Fund Manager"). The Fund is licensed by the Capital Market Authority (CMA) under Fund ID No. 003-01-1-0562. The terms and conditions of the Fund were approved by the CMA on 6 Dhu'l-Qi'dah 1435H (corresponding to 1 September 2014) and the Fund commenced its activities on 5 Muharram 1436H (corresponding to 29 October 2014) pursuant to such approval and after concluding the subscription procedures.

The Fund's objective is to achieve long-term capital growth through investment in initial public offerings and newly listed companies not exceeding 5 years from its listing on the Saudi Stock Market.

The Fund Manager is licensed and regulated by the CMA, through license no. 08123-37, to engage in dealing as a principle, managing mutual funds and providing consultation and safekeeping services for securities business.

The Fund is governed by the Investment Fund Regulations (the "Regulations") issued by the CMA on 3 Dhul Hijja 1427H (corresponding to 24 December 2006), and effective from 6 Safar 1438H (corresponding 6 November 2016) by the New Investment Fund Regulations ("Amended Regulations") published by the Capital Market Authority on 16 Sha'aban 1437H (corresponding to 23 May 2016), detailing requirements for all funds within the Kingdom of Saudi Arabia. The regulations were further amended by Resolution of the Board of CMA number 2-22-2021 dated 1 Rajab 1442H (corresponding to 24 February 2021). The amended regulations were effective from 19 Ramadan 1442H (corresponding to 1 May 2021). Furthermore, the regulations were amended by Resolution of the Board of CMA number 1-54-2025 dated 23 Dhu al-Qi'dah 1446 AH (corresponding to 21 May 2025).

In dealing with the unit holders, the Fund Manager considers the Fund as an independent entity. Accordingly, the Fund prepares its own financial statements. Furthermore, unit holders are considered as owners of the assets of the Fund and distributions are made in relation to their respective ownership in the total number of outstanding units.

2 BASIS OF PREPARATION

The condensed interim financial statements of the Fund for the six-month period ended 30 June 2026 have been prepared in accordance with IAS 34 "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia.

The condensed interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Fund's annual financial statements. The interim results may not be an indicator of the annual results of the Fund.

The condensed interim financial statements have been prepared on a historical cost basis, except for investments at fair value through profit or loss that have been measured at fair value. The Fund's condensed interim financial statements are presented in Saudi Riyals, which is also the Fund's functional currency.

3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

The significant judgements made by the Fund management in applying the Fund's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (Continued)**3.1 Going Concern**

The Fund's Manager has resolved to liquidate the Fund. As at the date of these condensed interim financial statements, the Fund Manager's decision is subject to the approval of the Capital Market Authority ("CMA"), and the approval process is still in progress. Accordingly, the liquidation has not yet been formally approved or effected as at the reporting date.

Management has continued to prepare these condensed interim financial statements on a going concern basis, as the liquidation is not yet confirmed and remains contingent upon CMA approval. Management will continue to monitor the status of the CMA approval and will reassess the appropriateness of the going concern basis of preparation once the approval is obtained. In the event the CMA approves the liquidation, the Fund's financial statements for the subsequent period will be prepared on a liquidated basis, and the assets and liabilities will be reclassified and remeasured accordingly, with appropriate disclosure of the impact of such change.

Management believes that no adjustment is required to the carrying values or classification of assets and liabilities in these condensed interim financial statements as at the reporting date, as the liquidation has not yet been approved and the Fund continues to operate in the normal course of business pending the outcome of the CMA's review.

4 MANAGEMENT FEE AND OTHER EXPENSES

The Fund is managed and administered by the Fund Manager. For these services, the Fund accrues a management fee, as set out in the Fund's terms and conditions, at an annual rate of 1.9% of the Funds net assets calculated on a daily basis.

The Fund is responsible for all expenses, fees, other costs and liabilities incurred in managing and operating the Fund. Such expenses include, but are not limited to, audit, administration, custody, government and other professional fees.

Board of Directors remuneration	SR 3,000 per meeting only payable to the independent members, maximum up to SR 12,000 per annum.	Per member per meeting

8 VALUATION DAY

The Fund's units are valued at every Monday and Wednesday and unit price is announced on the following business day. The last valuation day for the purpose of preparation of these condensed interim financial information was 30 June 2026.

9 FAIR VALUES AND RISK MANAGEMENT**9.1 Fair value measurements of financial instruments**

The Fund does not have financial assets and financial liabilities which are measured at fair value, except for Investment at fair value through profit or loss (FVTPL) which is classified in the first level of fair value hierarchy.

9.2 Risk Management

The Fund's activities expose it to a variety of financial risks: credit risk, liquidity risk, market risk and equity price risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board supervises the Fund Manager and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risks is primarily set up to be performed based on the limits established by the Fund Board. The Fund has its Terms and Conditions document that set out its overall business strategies, its tolerance of risks and its general risk management philosophy and is obliged to take actions to rebalance the portfolio in line with the investment guidelines.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below:

Credit risk

Credit risk is the risk that one party will fail to discharge an obligation and will cause the other party to incur a financial loss. The Fund seeks to manage its credit risk with respect to the banks by only dealing with reputable banks having sound credit ratings.

	30 June 2026 (Unaudited)	31 December 2025 (Audited)
Cash and cash equivalents	1,254,072	2,004,558
Due from a related party	806,591	-
	2,060,663	2,004,558

The carrying amount of financial assets represents the maximum credit exposure.

The fund is exposed to minimal credit risk as the cash and cash equivalents held with reputable banks with sound credit ratings.

9 FAIR VALUES AND RISK MANAGEMENT (Continued)**9.2 Risk Management (Continued)****Liquidity risk**

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's terms and conditions provide for subscription and redemption of units on Monday and Wednesday, therefore, exposed to the liquidity risk of meeting unitholder redemptions on these days. The Fund's financial liabilities primarily consist of payables which are expected to be settled within one month from the statement of financial position date.

The Fund Manager monitors liquidity requirements by ensuring that sufficient funds are available to meet any commitments as they arise, either through new subscriptions or liquidation of the investment portfolio. The expected maturity of the assets and liabilities of the Fund is less than 12 months.

The table below summarises the maturity profile of the Fund's financial liabilities based on the contractual undiscounted amounts at the reporting period:

30 June 2026 (Unaudited)				
<i>Carrying amount</i>	<i>Less than 1 year</i>	<i>1 year to 5 years</i>	<i>More than 5 years</i>

Market price risk

Market price risk is the risk that value of a financial instrument will fluctuate as a result of changes in market prices, such as foreign exchange rates and interest rates, and will affect the Fund's profit or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Equity price risk

The Fund listed equity securities are susceptible to market price risk arising from uncertainties about its future values of the investment securities. The Fund manages the equity price risk through diversification and by placing limits on individual and total equity instruments sectors (refer Note 5). The exposure to equity securities and its impact on equity is detailed in the table below with a % change in equity prices:

10 ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the condensed interim financial statements are consistent with those applicable in the annual financial statements for the year ended 31 December 2025.

11 New Standards, Amendment to Standards and Interpretations

i) There are no amendments or interpretations that are effective for annual periods beginning on or after 1 January 2026 that have a material impact on these condensed interim financial statements.

ii) The Fund has not early adopted any new accounting standards, interpretations or amendments that were issued but not yet effective.

iii) In April 2024, the International Accounting Standards Board (IASB) issued IFRS 18 "Presentation and Disclosure in Financial Statements," which will replace IAS 1 "Presentation of Financial Statements." As endorsed in the Kingdom of Saudi Arabia, the standard is effective for financial periods beginning on or after 1 April 2026, with earlier application permitted. In accordance with the requirements of the Saudi Organization for Chartered and Professional Accountant ("SOCPA"), the Fund is disclosing its preliminary assessment of the expected impact of the initial application of IFRS 18.

IFRS 18 introduces the following key requirements:

- Classification of income and expenses in the statement of profit or loss into five defined categories: operating, investing, financing, income taxes and discontinued operations;
- Presentation of two new required subtotals: "operating profit or loss" and "profit or loss before financing and income taxes";
- Disclosure of management-defined performance measures (MPMs) in a single note to the financial statements, including reconciliations to the most directly comparable subtotal or total specified by IFRS;
- Enhanced principles on aggregation and disaggregation of information in the primary financial statements and the notes.

Preliminary assessment of the expected impact

The Fund has commenced its assessment of the impact of applying IFRS 18. Based on the preliminary assessment performed to date, the Fund expects the following:

i) Classification of income and expenses

- The structure and presentation of the statement of profit or loss will change as a result of the classification of income and expenses into the operating, investing, and financing categories and the presentation of the newly required subtotals. As the Fund's principal business activity is investing in equity securities on behalf of its unit holders, IFRS 18 requires income and expenses arising from this activity — including net gains or losses on financial assets at fair value through profit or loss, dividend income, and directly attributable transaction costs — to be classified within the operating category, rather than the investing category that would otherwise apply to an entity for which investing is not a main business activity. Management fees, custody fees, professional fees, and other administrative expenses will similarly be classified as operating expenses. The Fund does not currently hold associates, joint ventures, or foreign-denominated investments giving rise to material foreign exchange differences; to the extent such items arise in future periods, they will be classified in accordance with the nature of the underlying activity under IFRS 18. The Fund is also assessing whether any amounts payable to unit holders on redemption, where units are classified as financial liabilities in accordance with IAS 32, will result in related finance costs being presented within the financing category.

ii) Management-defined performance measures

- The Fund does not use management-defined performance measures in its public communications and does not expect this disclosure requirement to apply; this assessment will be finalized as part of the Fund's detailed implementation work.

(All amounts in Saudi Riyals unless otherwise stated)

11 New Standards, Amendment to Standards and Interpretations (Continued)**Preliminary assessment of the expected impact (continued)***iii) Aggregation and disaggregation*

- The Fund is evaluating the level of aggregation and disaggregation of line items presented in the statement of profit or loss and related notes, including the presentation of net gains/losses on investments, dividend income, and operating expenses.

IFRS 18 is not expected to affect the recognition or measurement of the Fund's assets, liabilities, income, or expenses; accordingly, no impact on net profit/loss attributable to unit holders, net assets attributable to unit holders, or cash flows is expected. However, the presentation of certain subtotals in the statement of profit or loss, and the classification of certain income and expense items, will change.

The Fund is continuing its detailed assessment, including the impact on systems, processes, and comparative information, and will provide updated disclosures in future financial statements as the assessment progresses. The Fund's management/Board is monitoring the Fund's progress toward compliance with IFRS 18 in accordance with the CMA's requirements.

12 SUBSEQUENT EVENTS

There are no significant events between the end of the reporting period and the date when condensed interim financial statements are approved which require adjustments or disclosure in the condensed interim financial statements.

13 APPROVAL OF CONDENSED INTERIM FINANCIAL STATEMENTS

These condensed interim financial statements were approved by the Fund Manager on 11 August 2026 corresponding to 28 Safar 1448H.
