Tadawul Announces Implementation of Nomu Capped Index

The Saudi Stock Exchange (Tadawul) announces the implementation of Nomu Capped Index (NomuC) Sunday 24/3/2019, as part of key developments previously announced aimed at supporting the growth, development and sustainability of the market, and increasing the number of listed companies on Nomu and enhancing the market liquidity.

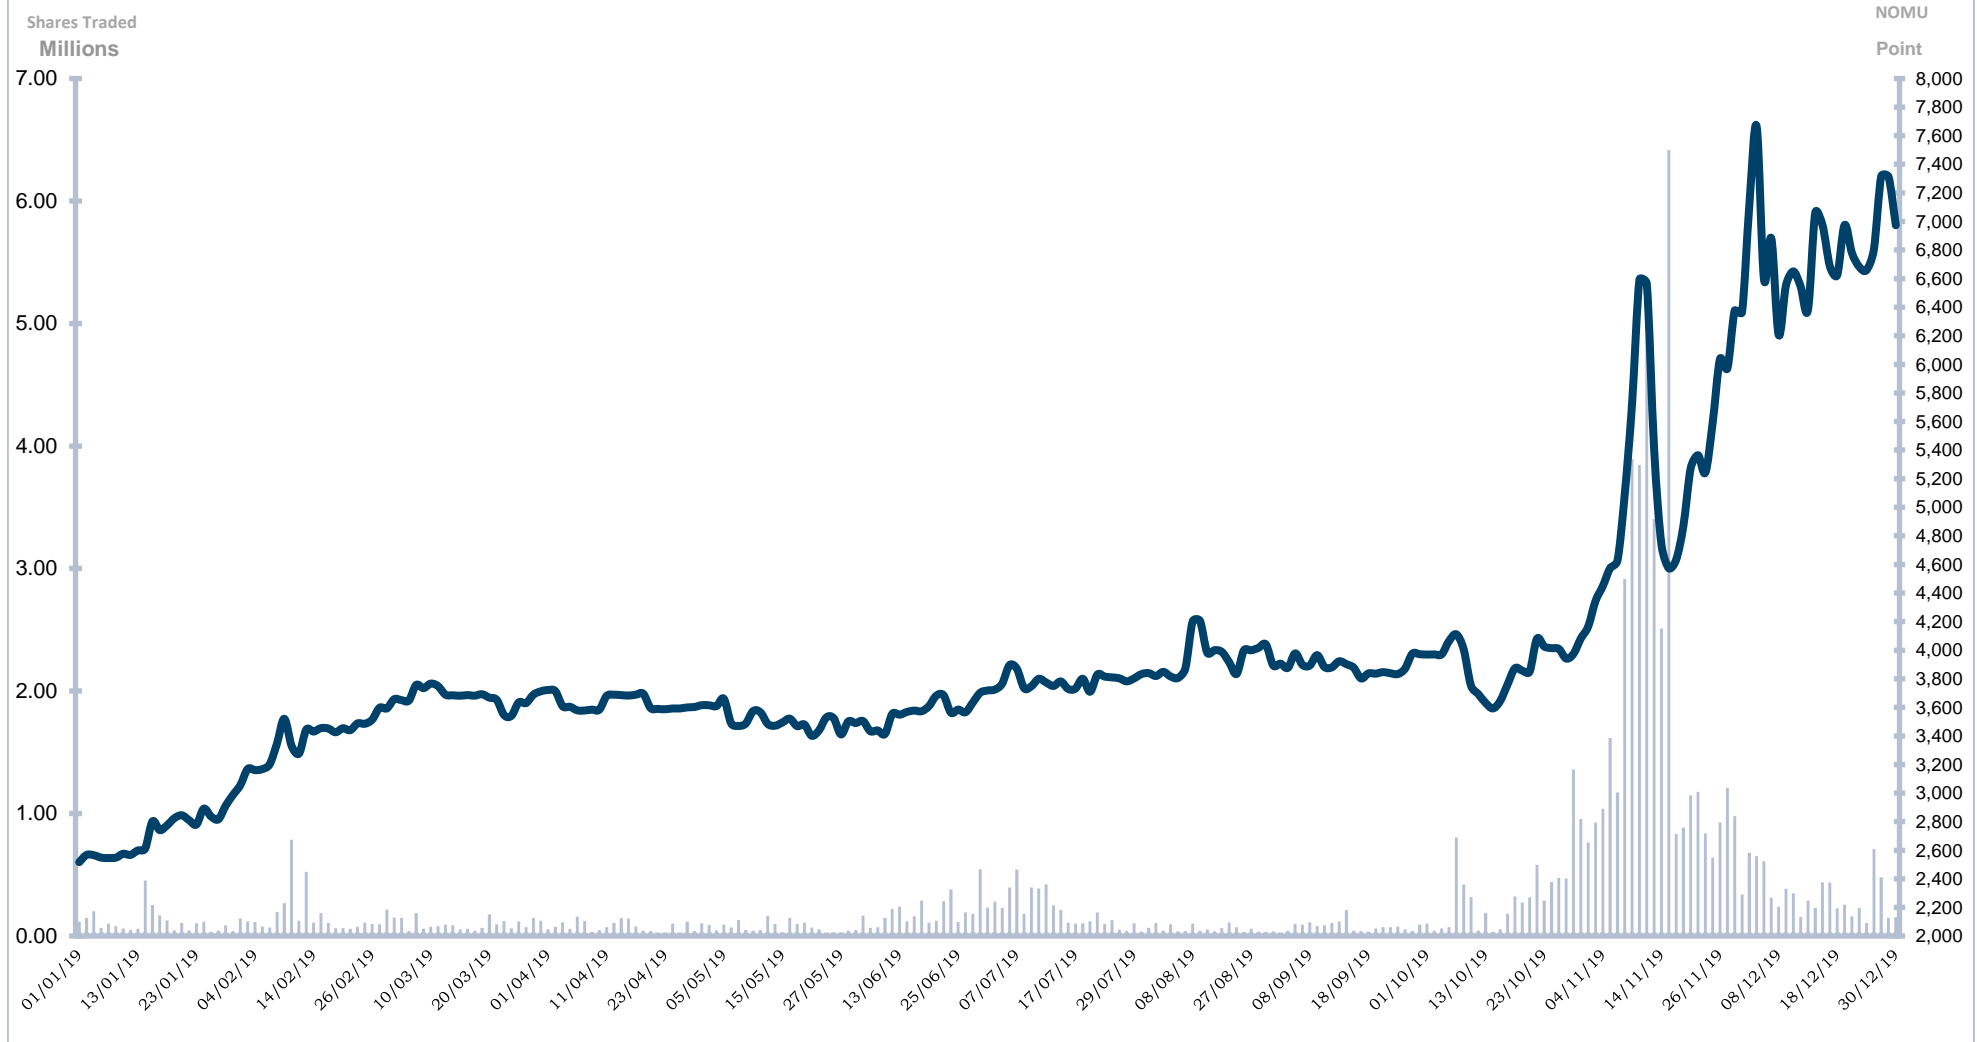

NomuC will follow the same free float market cap weighted calculation methodology used currently for the main market and sectors indices.

A capping threshold of 20% for any individual security will be applied to prevent any single security from having a dominating influence on the Nomu Capped Index. NomuC will be rebalanced on a quarterly basis, aligned with the quarterly index maintenance cycle at Tadawul.
